*A Letter From
Dr. Humphrey C. Cornholt,
Principal,
C. Estes Kefauver
Memorial High School*

*DEAR MR. KROGER,
THE ONLY TRUE HUMAN
WASTE IS WASTE OF
TIME.
REGARDS,
H. CORNHOLT*

Dear 1964 Graduating Class of C. Estes Kefauver Memorial High School:

Now, at the tail end of my first year on the Principal's stool at Kefauver High, certain thoughts begin to emerge and I would like to pass a few of these along to you.

First, graduation can be viewed as one of two things: a beginning or an ending. Indeed, there are some here to whom graduation will be a finale, a closing of both the schoolbooks and the mind. It is not to them that I speak. Rather it is to those who are determined to continue the educational strain, to push ahead, and to digest more and more "food for thought" each day.

Second, I'd like to say that it gives me great pleasure to be able to release all that I've been holding inside me so long, and to tell you what a nice feeling it has been for me to perform my duties as Principal among such firm and regular young people as you.

Third, let me, if I may, use this "rest stop" in the Kaleidoscope's busy action to sound just a few notes about the kind of world you and your fellow students are entering as you come out at the end of your journey through our educational system. Let me extend a few pieces of solid advice to aid you in finishing those things which we must all, by nature, finish and to assist you in eliminating, in as smooth and easy a manner as possible, those things in life which must be eliminated.

A great philosopher once said, "It is the silent doer who makes the cent while the wind-bag critic ends up with mud in his eye!" And, indeed, today's world is flush with opportunities awaiting that silent doer's plunge. But to succeed you must know what you are doing and where you are doing it. You must bear down hard as you can during every task, and, no matter what the outcome, wipe your slate clean afterwards. Should the world confront you with a price to pay, pay it proudly. Then turn the lock, open the door, and let loose your all! And if accidents happen, always remember that "Today's waste may be the morrow's taste." Beware of those who would hurry you needlessly and of those who would exert a constipating influence. Fertilize the minds of those you pass and the grounds on which you tread. Leave the droppings of wisdom and those who are awaiting behind will follow the trail. Shun hot air when there's nothing solid behind it. And, in mind and body, heed nature's call and keep "all systems GO."

And this is what I leave you with, Seniors of 1964, only let me make one final comment about the teaching profession of which I, of course, am a part. It is my personal reply to the old saw we've heard so often, that "Those who cannot do, teach." My answer to that is solely in the examples I set whereby I hope to have proven to you that some of us in the world of education can "do" quite well after all!

I remain very truly yours,

HUMPHREY C. CORNHOLT

Nineteen Sixty-Four

DEDICATION

John F. Kennedy
1917-1963

We proudly dedicate the 1964 Kaleidoscope to John Fitzgerald Kennedy, whose tragic death marred the passage of this year at Kefauver High, a man whom we admired not for what he did for himself but for what he did for his country and we as citizens of it.

JFK, perhaps we learned more from you than from any other teacher in high school. You taught us the courage of action in West Berlin, the wisdom of patience in Southeast Asia, the action of wisdom in our space race, the patience of courage in desegregated schools, and the active patient wisdom of wise courageous action at the Guantánamo Naval Base. You are gone, but you have left behind a legacy of peace and prosperity at home, abroad, and in school. And, though the Presidency has passed on to other able hands, it is you who remains "President of the Class of '64" in our hearts. You who might as well have said, "Ich bin der Kefauver Senior."

FACULTY & ADMINISTRATION

ADMINISTRATION

A Message from Philo M. Daggerty, Superintendent of Schools

Congratulations to all Duxton School System Graduating Seniors, and I know how proud you are to be receiving them. Let me take a moment to leave you with a thought I have found very valuable to my success down through the years: That is, that now when you are leaving your respective high schools, do not be mistaken and think you have left school behind. For, in fact, you are now about to enter the largest school of all. And I am not speaking of even Ohio State, where some of you will have the good fortune to go, but of the School of Life. Yes, for all of life is a school. Your classrooms will be your jobs and professions, and our country's elected officials and the respected business and religious leaders of our communities will be your faculty and administration. Perhaps exams will not be held on so regular a schedule, perhaps grades will not be posted exactly four times each year, but exams there will be and your "grades" will be posted for everyone to see. Indeed, you will find all of school in life—the homework it takes for success, the surprise quizzes when sudden problems arise and require your mature judgment, the "school spirit" you'll show for America itself, and even the enjoyable extra-curricular activities of your future families and social get-togethers.

So have a good time at your graduation ceremony and be rightfully proud of your accomplishments. But don't forget that the next "school bell" that rings will find you "in class" for the "required course" in Adulthood, where the tests you're given will determine your future forever!

A Message from Assistant Superintendent of Schools Durward Cromel

Congratulations, Graduating Seniors, and let me offer a small piece of advice: You are leaving high school but you are entering "Life School." Instead of classrooms, you'll have offices and factories. Instead of teachers, you'll have superiors and supervisors. But everybody will still know what kind of grades you're getting. So be glad that you've passed in high school but remember not to flunk your future.

Duxton Board of Education: Morton Truack, President, Marie Curran, Secretary, Sheila Falk, Irwin Dewlap, Samuel Quigg, Conrad Hobble, L. Philip Gerwin.

And Lest We Forget

... the "little people" who also make "big" contributions to Kefauver High in their own small way. Whether mopping a dirty floor, driving a stinky old bus, cleaning up vomit and vandalism, or simply handling our foods, these valuable and wonderful people will always have a place in our hearts and buses and basements as long as they live.

To them we truly and sincerely say "hats off" and "thanks a lot."

Food Services

Like cars that run on gasoline, active KHS learners get "motivated" from well-balanced and nutritious lunches prepared with care by others so that we will have fuel for sports, dating, and musing on ideas.

Custodial Engineers

Janitorial duties around KHS may not be as challenging as teaching students about space technology and the real world around us, but how many of us could drive a spaceship if the cockpit were full of unspackaged fast-food litter and garbage? Food for thought.

Seniors

In Memorium

Of all the pieces that are appearing in this, the Kaleidoscope of this year, this is, I am sure, the saddest piece you will read and one of the hardest ones to write. As I sit here at my binder in the Yearbook Room, trying to think of what would be the right words to say, I realize that trying to say the right things about a thing like this is as hard as trying to get up in Mrs. Hampster's English class for one of her famous oral talks when she doesn't give you the topic until you're up in front of the class, and so you usually just say stupid things that you wish you weren't saying.

What I have to write about here is one of our students who is no longer with us, if you know what I mean, and it's not that he transferred or flunked out. His name was Howard Lewis Havermeier, and most of us here on the Kaleidoscope staff didn't get a chance to know him too well because even when he did come to school, he coughed a lot and sometimes after coughing he made funny noises, and someone once said that Nurse Krupp told our parents that we shouldn't stand too close to him even when he wasn't coughing.

But just because we did not know him, however, does not mean that he was not a real nice guy. He used to smile at people when he wasn't coughing, and he was supposed to have been really good at baseball when he wasn't coughing. He was supposed to be good at swimming too, and he would have made the swimming team for sure if the county had given Coach Wismer permission to make the water warmer. They say he was even supposed to have been good at touch football, although he was supposed to stay away from dust, and a lot of the girls thought he looked like a Master of Ceremonies.

As I said, there isn't anything much a person can say about something like this. We all would have been a lot happier if he were still here among us, and what happened to him was certainly a bad mark on all the happy events of our young years. We had a wonderful time and wish he were here.

Dear Kangaroo School Student and All of Americas,

Now that time is happened for returning of me to my homeland great big happy I say to you I am having been for here to be so long. One question all the time my two ears are hearing for me: "How much am I liking to live this country here?" Always to these my tongue wags, "Uye lz lz penio-h-litti shoo jhoo shoo shoo jhon!" Which means in my people's talking, "How is the one foot to wear of six boots?"

So much all around is difference everywhere. Not so my country. Many houses have each folks here, I beg your for instance. Shiny fast houses with the wheels to live in going back and forthward (such as in the morning time to Kangaroo School and goodnights to pictures which wave in sky outside doors). These shiny houses big as Gurt for sixfold folks family and oax, but yet not even for sleep except of make-grunting with fresh wives not bought for yet. But that is not three halves of it! Then there is houses of shiny house to live inside with lawn cycle and garden combs only. Then is Giant Gurt of Many Floors with special rooms which are all over. Rooms for each's own sleeping nights where lay on tables soft like mud. Room to hang up the meat to stink in boxes for making it stink quick as eye folds. Rooms for making earth. And besides plenty of more than that. Then is there even house especial for fur pooch (which they are let to age very old, I make notice of, here, before hung up to stink in your hours. So much so I'm not seeing one meal full whole of my time here—not so my country!) And then in last place is there House of Kangaroo School where all of each send men sons and daughters still for selling. This is bigger than Laek Palace in Great City of my land! But much fun I get here. Student friends all merry and fine. Always they are making the friendly hello laughter at me. And they have the games with playing such are 52 Pick-Ups and Bet-They-Hit-Softer which do I win always. Or sometime going to see for watching. Best of this I like is Throw-the-Lizard. Then there are the room of classes for learning with scratch scratch scratch and so much questions always and hard talking for good of mine knowing of which favorite for me is the room of class where is learning what foods cost in money and then we eat. So is all great good fun. And much the most so of all it little mouths in wall bottoms everywhere. That are when fed the clips-the-paper and other metal meals then belch fire pop! poof!! Ha! Ha! Giant fun! I go now. Bye. Bye.

1964 Spring Senior Trip

Each spring, a number of seniors and a faculty sponsor break their usual kungo-routines and spend Easter vacation in glamorous globe-hopping! This year, their kungo-route led all the way to New York's well-known Manhattan Island City, New York, when a half-dozen intrepid wallboys 'n' girls jumped at the chance to be Big Apple bound 'board bouncy bases 'midst Manhattan mirth, magic, and merriment, and plant their perky paws 'round the town as they packed their pouches with a million-and-one-darful marvelous mazzapital mementoes!

"It's a small world after all!" peeped plucky peripatetic perambulator H. Leonard Weisenbender as kungo-rundabouts looked their korn's 'n' kalluses beneath the 1964 World's Fair's unique Unisphere and muffled over a map of konvenient kungo-restorment!

"Nobody here but just us ignition!" exclaims teen-space-ager 'n' astro-nut Gilbert Scribble as he tickles the business end of a spent but still spectacular NASA space rocketship motor muffler!

"Ooooooh, so tall!" lay krowed kungo-ruben as they scan the skyline for the topless tower's terraces and a pack of gronkish pigeons (or "feathered rits"), who the spattered sightseers agreed wore the foulest of fowl!

"Hey daddy-o, take me to your hipster hootenanny!" giggle "grooving" galsabouts simply mad about meeting their first actual beatnik in Washington Square's wild 'n' wacky "The Greenwich Village."

"Ten points for a wounded wog!" cheer kofariver good will anbeachables as "Wag-Ding" wings a wofkoth-wrapped words listering in the United Nations Plaza with the first diphthot boat 'round the world!

"Okay, you guys, this is a hold-up!" wisecracks a witty Weisenber at the very famous Rockefeller Center as he pays tribute to a stocky feller who's really got the whole world in his hands!

"The eyes have it!" sing-song "honorable kangaroo" as their exciting visit to New York's quiet old Chinatown gives "humble undogmatists" a new slant on old ways!

"Now I know why they call it 'fired lice!'" marvels polite metropolite Scribbler at a real Chinese restaurant, although his order of the day is an authentic all-American red, white, and blue-plate special!

"Free popcorn, come 'n' get it!" is the kangaroo-recommendation when lay meets gill on the very famous Staten Island Ferry.

"Give me the Statue of Liberty or give me death!" chorus khaki-faced kang-rumble-tummies as they encourage their rock 'n' rolling showboat to reach the destination before their delicious Chinese meal reaches its Sorey to report, our kwoasy kang-rutcher forget to "miss the boat!"

"Seven... six... five... four...!" ticked off faculty sponsor Mr. Dazze Festum as he finished his own "countdown to ten" before shooting the Kefauver Space Program's first attempt to put a marble in orbit from the top of the Empire State Building!

"Now I lay me down to sleep, I pray the Lord all this enjoyable fun and many wonderful educational experiences in my scrapbook to keep!" murmur sleepy kang-rookies as they curl up in their kory quarters in the very famous and reasonable Penn Garden Hotel!

Four short and fun-filled years ago our freshmen brought forth to this high school a new class dedicated to the Principal, teachers, and all the sports teams at C. Estes Kefauver Memorial High. Boy, were we proud to be real teenagers in high school at last. (Of course, our pride turned into confusion every now and then when we got lost in the halls all the time!) And boy, were we happy to find out that Seniors didn't really push your head in the lockers on the first day. (Remember how all those chattering Sophomores sent us out to get "instructor passes" and "left-handed spiral notebooks"?)

1961: Freedom Riders get killed in Alabama.

That was our Freshman year and we had lots of fun but we worked hard too with difficult academic courses and lots of hard school work. We chose PWky Allright as Freshman Student Council Representative and Charley Farley for Class President. It was also election year for the rest of the country and Ohio's "native son," Bob Taft, Jr., won a majority of votes as the KHS "Electoral High School," but John F. Kennedy was elected Strom. President by default because

1963: Protesters made buses to death in Washington.

Mr. Taft wasn't alive any more. Forrest Swisher wrote the Freshman Class Cheer: "High School, My School, How Do You Do? / We're the New Kefauver Loyal and True / To the Bright Shiny Orange and the Bold Turquoise Blue / Hop Hop Hop Hop Hop Hop Go Kefauver!" And as freshman sports our football "Jocks" made a strong showing with a practice loss by only two points to the third team JV Wallabans, though we didn't get to repeat any successes like that in any of the regular league games. As the end of the year rolled by there was the Pep Club Freshman Breakfast Dance, Decorating Committee Chairman Paul Rosenber selected "There Is No Frigate Like a Book" as the theme

and the entire cafeteria was decorated in cardboard boat costumes with book covers like Etofofo and Noise Done Call N' Tremor for such.

Sophomore year went by in a swirl.

As Juniors we were eagerly excited that our Seniors year was an close and elected Winky Desjpler Class President and Chuck Farley Student Council representative. Everybody had a good laugh when the Bark, that practiced joking Kar Klub members donated to the Junior Car Smash based out to be the Principal's and Mr. Conrad was still reside Ursula Witwensky and Howie Haveranmyer took first in city Wheelchair table Tennis and our "Junior Jumper" JV team added one more win to our sports score. Benzo Grumak was Dance Committee Chairman for the Junior Vienna Drug and chose "Polka Parade" as the theme. Ploze Filtsman was Varsity Drug Queen and Al Orwasooka and his Accordian Ordbush played music on this successful occasion. The Junior Class Trip was to Cleveland where we made a special visit to the top of the Terminal Tower Building, thirty-eight stories up! And we could have seen all the way to Soudinsky if it had been a clear day!

1964: President Kennedy in assassination in Dallas.

Junior year ended on a sad note as popular and hand-capped Howie Haveranmyer went into the hospital and Senior year started on a sad note as he died. And so did President Kennedy. But, as Seniors, we were too full of active pep to stay down long and we bounced right back with a victorious game in our football season and "got the jump" on the St. Vitas Program at the beginning of our tournament game with them. Electing our Democratic institutions in student elections, we made Bob Baxter Seniors Class President, Chuck Farley President of Student Council, and Annora Peppridge Homecoming Queen. We went on a Senior Trip to New York, New York, and when we got back "Camelet" was the theme of our Senior Prom. By the time we got finished decorating the gym so one would have known it wasn't a medieval castle in the Middle Ages. Graduation ceremonies were held for the first time ever in the new Mohle Home Bowl Arena Auditorium and everybody agreed that it had been the best Senior Year for the best Senior Class ever at C. Estes Kefauver Memorial High except for the tragic deaths of Howard Haveranmyer and President Kennedy and the car accident after the Prom.

CLASS PROPHECY

It's 1974 and Vince Lombretta's a big rock 'n' roll star. He wears his head shaved like the Russian rock groups that are the latest fad do in "Swungang Sevastopol."

Charles Farley was just elected to the World House of Representatives as Global Congressman for Greater Dacron.

Bob Baxter already helped explore Venus and Mars as an Astronaut in the U.S. Air and Space Force and now he's an Atomic Rocket pilot blasting back and forth between Dacron and New Washington, D.C., for Pan Moon Spacelines.

Bruno Gruzniak is a Sergeant in the United Nations' Marine Corps, stationed in our fifty-first state—sunny Cuba.

"Alphabits" Odnijk has returned to her native land to found the first chain of drive-in beeflockburger stands—McOdnijk's "Over Six Gross Pecks and Many Score Furlongs Sold." And I bet you can guess where all the carhops carry their trays.

Amara Peppridge is a big star on three-dimensional smellovision and she's playing the lead role in famous writer Forrest Swisher's latest play about Jalixt, a beautiful creature from Alpha Centuri, who falls in love with R36m30 from Ursu Major despite the intergalactic war between their two universes and tragically dies in the end.

Also on smellovision all the time are Winky Dimplex, Pinky Albright and Twinky Group, the Triple-Mint Triplets, singing and dancing a commercial for Triple-Mint, the mentholated fluoride chewing gum that fills tooth cavities and cures cancer.

And fixing those complicated smellovisions is smellovision repairman Larry Kroger. But it's no sweat when the set has to go into the shop 'cause all he does is take it off the wall and roll it up.

Famous scientists Gilbert Scrabbler and Belinda Heinke have won the Nobel prize for inventing a nuclear-powered car that drives itself where you tell it to, a new fungus that cures heart attacks like penicillin, and test tube babies.

But Carl Lepper is still waiting for them to invent acne vaccine. Carl is a strontium 90 prospector on Uranus and everybody was glad to give him a going away party.

Franklin Furter sells transistorized World Book Computerpedias door to door and they make everybody so smart that Rufus Leaking is a Professor of Electronic Medical Math in a Dacron Grade University kindergarten.

Progress of all kinds has been a big advance for everybody in 1974. Such as Zippy Jones is Governor of Mississippi and Ursula Wattersky is a Prima Donna in the Dacron Ballet.

Preggers Preeger finally found out who gave her tonsillitis. They have a large family and live over a mile up in Trailer Towers, owned by international playboy and Turbo-Yachtsman Woolworth Van Huseen III, who's married to the famous movie star and sex symbol, Hayley Mills.

Wing-Ding Weisenheimer is a top comic in Las Venes where he plays all the big Venusian night clubs—and on Venus the nights are four months long!

Faun Rosenberg ran out of things to protest after the World Government fixed up all the international injustice, so she became a famous folk singer staging old folk songs from all the different planets like "Hang Down Your Throat, Xzyv Vzyqv."

Meanwhile, back at old KEIS, Fran Paluka has Miss Armbruster's job, except gym courses are all weightless and Fran lets students ride their anti-gravity air-skate wings on the school walks as long as they're careful.

Fizzie Fitzerman disappeared back in 1970 and no one knew where she'd gone until Dominic Broccoli took a vacation to Australia and—you guessed it—there she was in the middle of the herd! Hop! Hop! Hop! Hop!

ACTIVITIES

STUDENTS AID IN ORGANIZING STUDENT ORGANIZATION ACTIVITIES TO AID ALL STUDENTS WITH ACTIVE ORGANIZATIONS

More Student Freedoms Mean Greater Student Responsibility for Duty to Conscientious Performance of School Obligations

Student Council achieved many accomplishments during this school year, participating in the decision-making process surrounding numerous resolutions on subjects concerning vital aspects of our daily school lives. One accomplishment which was very fundamental to the functioning of our democratic system upon which America was founded here at KHS was the institution of a Student Suggestion Box. Through this new institution students are now able to place "votes" (suggestions) in their own "ballot box" (the Student Suggestion Box), thereby functioning as the "legislative branch" of a democratic government. Then the Administration can either "sign the bill" (by making a suggestion into a new school rule) or " veto the bill" (by not making a suggestion into a new school rule), thereby functioning as the "executive branch" of a democratic government. After that, if there is a new school rule to be enforced, the Hall Monitor and Student Court will enforce it, thereby functioning as the "judicial branch" of a democratic government under the new rule has a Citizenship Democrat from Poverty at more than sixty percent because that you get sent to the Dean.

Student Council motto is "Give me liberty or give me death," and members sponsor the annual December Senate Ball where there this year was "Winter on Ice."

National Honor Society

Honoring Students of the Sciences and Humanities Who Will Go to College Out of State

National Honor Society recognizes that it is really no honor to get good grades and the National Honor Society's small copper lapel pin is worn by National Honor Society members with the use that Variety Sports Team members wear their Variety Blazer, Variety Warm-up Jackets, Variety Socks, Variety Ties, Variety "K" Letters, JV Letters, Freshman Letters, Special Commendation Patches, Service Stripes, Captains and Co-captains, Deanships, and Book & Medalions to share their grand achievement off to all. For excellent grades are earned an honor regardless of the esteem in which they are held by the school's fellow students. And all the fun and the youthful joy result of to have these grades is regarded in full by the excellent grades achieved and the National Honor Society's small copper lapel pin.

Wow, thank you very much. I've been helped sweet my to you classmate. It looks like

The Prism

Kefauver's Newspaper Breaks School Life into Colorful News

Keeping the KHS student body well informed with the facts is the most important principle behind Kefauver's weekly newspaper, *The Prism*, which is run on the principle that a well informed public, which is all of the students in our school, is the most important part of a democracy, which is our school and all its students. Therefore, deciding what can be printed as a fact in *The Prism* is such a big and important job that even Dr. Cushman takes time out from his busy schedule to help so *The Prism* can serve its important function as part of the democratic system of a well-informed public.

The Prism staff writes other things besides facts, though. They also write thoughtful views on important school topics, even those which there are arguments over, so that our newspaper fulfills the double purpose of helping students find out what they ought to be thinking about and what they ought to be thinking about it, too. *The Prism* always has Kefauver sports news because sports are an important part of life and keep us as fit to our bodies as we are in our minds.

Leaf and Squib Literary Magazine

Student Creativity and Originality is Closely Guided by Helpful Faculty to Promote Good Style and Careful Thinking

Leaf and Squib is printed two times a year and is made up of original creative new student poems, writing, and art. Its editors strive hard to promote originality, creativity, and respect which they reflect by publishing students' original new creative work. Twice each year, KHS students find it interesting to read stories and verses written by themselves and to see the pictures they draw. This publication is certainly a big plus for new creative talent and original creativity by KHS students whose poems, writing, and art are regularly printed before its covers in the interest of furthering the sense of creativity and originality in new poems, writing, and art by Kefauver students two times a year.

Editor in Chief Tammy Croup and Business Manager Chuck Farley check complicated deadline schedules while Assistant Editor Suzi Fitzerman goes over the all important "printer's galley's" with Copy Editor Wendy Dempler just as Ad. Manager Woolworth Van Husen makes several big last minute sales and Associate Editor Patty Albright runs off some eye-catching publicity releases at the same time that Photography Editor Forrest Swisher snaps one last "pic" and Art Editor Faun Rosenberg prepares her layout table while Delivery Editor Rufus Leaking rushes in with some much-needed Cokes just before the 1964 Kaleidoscope "went to press."

The 1964 Kaleidoscope which you are holding in your hands this very minute is the biggest and best Kaleidoscope that's ever been turned out at C. Estes Kefauver High. It took lots and lots of hard work to turn out and the Kaleidoscope staff did a lot of hard work to do it—designing all the complicated layout designs, drawing all the original and skillful artwork, taking all the difficulty posed and well lighted photographs with the help of Mr. Talmadge from the B.U.T. Studios and developing the film, writing page after page of accurate copy and people's names and typing it all and reading all of it again to make sure everything was spelled right, plus selling ads and copies of the Kaleidoscope itself. And that's only a small part of the hard work that this year's dedicated Kaleidoscope staff did so well that this year's Kaleidoscope is by far the best. Our thanks go out to this year's Kaleidoscope staff.

Mixed Chorus

"Kanga Crooner's" ever-popular performances were well liked again this year and especially enjoyed was their "Medley of American Melody" program featuring performances of "Hernando's Hideaway," "Buttons and Bows," "Flight of the Bumblebee," "Donkey Serenade," "Kitten on the Keys," and "Theme from Three Coins in the Fountain" which they performed not only in concert at KHS but also in March for the State Republican Rural Commissioners Convention at the Mobile Home Bowl Convention Hall and for the Fairview Lutheran Church's Annual Easter Sale in Spring.

Varsity Club

To further the pursuit of health is mind and body is the aim of the Varsity Club, whose members have all won a Varsity sports letter. But "K-Men" also perform social services and this year they adopted a young girl down on Mill Street and all visited her every Saturday night. Also, they helped decorate the outside of St. Vitus Academy before Homecoming.

First row: Brian Guzarak, Yasovet Lashovita. Second row: Chuck Farley, Mr. Worman, Advisor, Bob Butler, President.

Hall Monitors

Hall Monitors are student volunteers who aid all Kefauverites in maintaining quiet passing between classes, tidy lockers, appropriate school dress, and good grooming. Other duties for "Cranbolt's Commissioners" also include guiding lost freshmen and helping them obtain respect for proper authority.

Left to right: Carl Leppes, Lieutenant-General, Fran Polaha, Colonel, Belinda Bertke, Captain, Nancy Eggenschwiler, Sergeant Major, Miss Arrubruiser, Advisor.

Audio-Visual Aids

"Flicker Fellows" are a "real" boon to education at KHS since they are always on duty to project educational movies in classes or the auditorium. This year they projected the educational movie: *Death Takes a Drive in the Driver's Seat* more than two hundred times to Hygiene, Driver's Ed, Family Living, and Boys' Physical Education classes. Also, they plug in school extension cards and adjust the Principal's microphone during assemblies.

Left to right: Gilbert Scudlizer, Leonard Weinshelmer, Larry Kruger, Bogdy Demoslak, Don Buzza.

Junior Achievement

JAs are the best way of learning about American business because Junior Achievement is business education actually at work the way a real corporation, such as these young business people will someday guide and operate, operates. Students from a real corporation, put the way real corporations do, and sell all the shares in it. Then they manufacture something which sells for much more than it costs to make, divide the company, and get to keep all the money.

First row: Larry Kruger, Vice-President, Sales and Distribution, Wendy Dempster, Treasurer, Woodworth Van Hosen, President, Frank Forter, General Manager, Bobby Duvendak, Vice-President, Engineering and Production, Patty Almight, Vice-President, Marketing, Laraine Riggs, Vice-President, Typing. Second row: Stephanie Forrest, Chief of Operations, Gary Corwin, Geoprotector, Charles Farley, Chairman of the Board.

Junior Red Feather

Every year the Jr. Red Cross/Red Feather holds its annual Kefauver Kangaroo Hop of Dances to collect money for many worthy charities in the Duxton area. This year the theme was "Bonding for Bucks", however, the campaign was marred by the tragic theft of donated funds being held in the Treasurer's bank account. The KHS senior class pitched in, though, with a Senior Car Wash which cost a quarter for three hits with a sledgehammer so that a donation could be made to the Spinal Meningitis Fresh Air Fund.

Bonding for Bucks Committee, left to right: Pandy Spackle, Treasurer, Stephanie Forrest, Honorary Chairman, Ursula Wattersky, Poster Chairman, Sam Fritzenman, General Chairman, Laraine Riggs, Typing Chairwoman.

Kar Klub

Our "Hot Kangarooleden" are always showing up in the student parking lot in different brand new car models because a set of hot wheels is the first love of those club members who meet at night to learn everything about late model automobiles and their locks and ignition switches and detachable accessories.

Left: Pandy Spackle, President

Pep Club

School Spirit is one of the things which has made America great and Pep Club is the official KHS school spirit organization which leads all the official school cheers at varsity sports games. Honorary president each year is Janjudy the Kangaroo and club activities include memorizing cheers and then cheering them plus lending vim and applause to Citizenship Assemblies, Awards Banquets, the Principal's Speeches, and other school gatherings.

First row: Tamaray Croup, Vice-President, Patty Almight, Treasurer. Second row: Freda Patten, Tona Seiler, Kathy Paul, Janjudy the Kangaroo, President, Carol Bruner, Peggy Wilker, Lynn Iley, Evelyn Pevsner. Third row: Jessica Portmann, Fran Pabst, Robin West, Gary Corwin. Fourth row: Holly Duvendak, Woodworth Van Hosen, Clark Margolis, Laraine Riggs, Bill Spackle, Larry Sturton, Leonard Weisberner.

Future Farmers of America

Kelloggwood and 'Bettes who've got a "green tuff" make up the members of the F.F.A. club. Their club project this year was "Our Fresh Corn," which won a brown ribbon in the "Best Display on the Theme, 'Green Gold—America's Vegetable Resources'" category at the Silage County Fair Grange Hall.

Not pictured: Barry Allstead, Cheto Barber, Muel Frank, Leon Hertz, Jerry Lohrer, Susilo Vant.

Craft Club

"Crafters" use the school workshop to make all sorts of useful objects in their spare time such as metal knuckle guards for trimming prickly rose gardens, decorative new belt buckle edges, and pistol-grip novelty drinking straws made from old car antennas.

Left to right: Tom Suler, Larry Stanton, Percy Spackle, Frank Farnie.

Future Stewardesses

Future Stewardesses are career girls on their way up in the world! They meet every Thursday evening to practice intently gras and balance. The "Flighties" hold an annual "Coffee, Tea, or Milk" for members of the Future Alumni Club and also led this year's Kellogg Safety Kiosked Campaign, "Seat Belts On and No Smoking in the Student Parking Lot."

Slide Rule Club

The "Slip Sticks" meet on Tuesdays to learn more about the history, lore, and many handy uses of the slide rule. They compete with the Mathletes from other schools in contests of arithmetic skill and this year Gilbert Scriablier placed third in the State Divide-Off.

Left to right: Tom Suler, Mr. Aulick, Gilbert Scriablier, President, Slide Rule Hero.

Esperanto Club

Esperanto is a man-made language created to be logical and easy for foreigners to learn. "E-Speakers" hope this modern development will aid in achieving world peace democratically.

Left to right: Mrs. Hanzpeter, Advisor.

Wood-Burning Club

The "Beard-Brokers" are a hobby club with an interest in an exciting avocation which they use to greatly benefit all KHS students with club projects like the "Jumpy See - Are Your Gym Shorts Clean?" sign in the locker room and a beautiful plaque for the Good Stoneyway Gardnet Citizenship Award.

First row: Brent Grawiak, President, Bobby Densdale, Rubin Leasing. Second row: Mr. Bohak, Advisor.

Future Optometrists

Tuba Club

"Kangaroo-a-toot-toot" is the cheer of the Tuba Club. They're a service organization who give three free concerts each year at the Selago County Old Age Home. And this year they also pitched in to provide the musical accompaniment for the Junior Class Play, "Flower Down Song," when the school band all had the flu.

Left to right: Carl Lepper, Tom Siker, Leonard Weisman, Gilbert Sembler, Betty Rutledge.

Future Housewives of America

Homemaking is the oldest profession in the world and KHS F.H.A. members intend to make a lifetime career out of it. Club activities include an annual field trip to the Monroe St. Pick 'n Pay where members learn that nutritious food shopping on a moderate budget is a science just like astrophysics.

Left to right: Gale Stanley, President, Sally Buzzard, Mei Butternick, Advisor.

Rocketry Club

Rocketry Club members build and explode their own rockets with an eye on the exciting Aero-Space field after college. Their latest experiment, the V-LXXXVI, carried a message from Juney to high school students on other planets in outer space. It landed behind the stadium and was retrieved by Coach Woerner.

Young People's Society of Tri-Hi Teen Associations

Y.P.S.T.H.T.A. is a city-wide teenage service organization devoted to youth services for Dacota area teens. They're a group on the go with youth on their mind and this year they sponsored the Dacota Teen Council of Young People and hosted the State Youth Conference's Young People's Teen Convention. Y.P.S.T.H.T.A. members also elect regional representatives to the National Young Adult Congress which meets each year in Washington to explore American Young People's role in teenage youth.

Second row: Tom Seiler, President, Frank Porter, Larry Kroger, Gilbert Scrambler, Gary Gowen, Woodworth Van Hosen. Third row: Dale Ditzel, Pat West, Nancy Long, Diana Wilkes, Wendy Desjardis, Tammy Cragg, Sally Skogart, Patty Hingart, Patty Albracht.

Life Scouts

Being a "lifer" is what Explorer Scouts have in store for them after graduation. Life Scouts help teach the many skills of knots, flags, Morse code, and camp cooking to younger Scouts while preparing to be full-fledged Scoutmasters themselves and also having their own Adventure Program which this year included an overnight visit to Inlaken, a spring ski-lift trip up Mt. Isho, and a scenic canoe portage along the Mud River.

Left to right: Bob Langlois, Mr. Woerner, Advisor, Frank Factor.

Lincoln Douglas Debating Society

Like the great American debater Lincoln Douglas for whom they are named, the Debating Society members debate important issues with each other for practice and with other schools with an eye towards the state Debating Finals which our "Debate-Makers" didn't make it to this year. But the KHS "Verb-Fingers" did very well city-wide on the topics "Resolved: The United States Should Form a Common Market with Canada," "Resolved, The United States Should Not Sell Wheat to the U.S.S.R. Until Their Communist Government is Overthrown," and "Resolved: The United States Should Allow Chiang Kai-shek to Reoccupy Mainland China in order to Avoid Further Shelling of Quemoy and Matsu."

JULIUS CAESAR

As the lights lowered and the curtain agitated with hushed expectancy, a repeatedly-stated first-night audience of tragically bulls and surprised Our Town fans pocked much of the auditorium and sat through the Kargavarian's three-and-a-half hour drama with an expectant hush.

"So shall Rome exult 'til the cloak of tyranny is brought to its knees!"—I.e. As Brutus wisely argues with an ambitious Caesar, Cassius (played by Lawrence Kroger) lively breaks the evening's generally expectant hush at the play comically relieves itself.

"A soothsayer bids you beware the Ides of March"—I.e. As Caesar's wife Calpurnia looks on, a warning sooth is said to an over-ambitious but soon to be dead titled character.

Kavanaugh mask-and-wiggers broke a standing Finner foot-lighter tradition of ten years this fall by presenting the tragically historical *Julius Caesar* by William Shakespeare instead of *Our Town*, a regular faculty favorite. Aided by sets and costumes designed by Miss Mara Schwemfleich of the KHS Art Department, the histori-

cally tragic high school production whisked students and parents alike back to the days of Shakespeare and his ancient Rome of old.

The play, which deals with ambition, politics, friendship, life, death, ghosts, soothsayers, killing yourself, and swordfighting is as true today as it was in Shakespeare's time.

"Hail Caesar!" (III) cry the conspirators to a way but nevertheless soon to be dead Julius Caesar who suspects it isn't even naming out, much less halting.

"Almighty Caesar, dost thou lie so low?"—III. Here Brutus attempts to pacify an angry and accusing Mark Anthony by telling him that Caesar wouldn't tell the truth about his ambition even if he were not dead.

"Friends, Romans, countrymen, lend me your ears"—III. As Mark Anthony (Charles Farley) speaks to the Roman mob over Caesar's tragic corpse (Forrest Swisher), the conspirators find that they have been cleverly tricked by Mark Anthony who pretended to "bury Caesar, not to praise him" but praises him before he buries him anyway, spoiling the assassination.

"Great Caesar's ghost"—IV. Suddenly in the night, the specter of Brutus' ex-best friend appears and says they "will meet again at Philippi" where Brutus is going to be defeated. Some think the ghost is real and others tell Brutus the ghost isn't real. Brutus wonders.

"To be or not to be, that is the question?"—V. Brutus, his senses vengeful, already knows the answer to his own question, having convinced his servant to commit suicide on him. Mark Anthony finds his body and calls Brutus "the noblest Roman of them all" which, though dead, too, like Caesar and many others in the play, he would have considered a compliment.

"Our play is done, 'tis so and 'tis so!"—Jumpy. As the curtain falls for the final time, the entire cast accepts the many claps and expectant hushes from much of the remaining "friends, Romans, and parents," many of whom stayed on to "lend me your hands" with scenery and general cleanup.

Senior Stunt Nite '64

"High School Hi-Jinks" was once again the theme for KHS's annual Senior Talent Night held in Moody Memorial Auditorium early this spring. As usual, an unprecedented array of talented "froos and "Bettes amazed classmates, teachers, and proud parents with their consistently unique and singularly varied gifts and abilities.

Hi-Jinks hi-lites over the years have boasted amateur excellence in a wide range of "show biz" arts including pop tune pantomimes, humorous monologues from literature, precision cheering, calliothes to music, a cappella humming groups, show-stopping kicklines (with suspiciously hairy legs!), rhythm bands, interesting collections, crack aerobic marching teams, yodels around the world, simulated underwater while-you-wait, "soft shoe" dance routines, choral arrangements of the Pledge of Allegiance, whistling simultaneous pig latin translations against time, making faces, fish cards, and girls' beaming throwing exhibitions.

"There's no business like show business," goes the old saying, and after this year's spotlight spectacular everyone agreed that the class of '64 showed they too had no business in show business like nobody's business.

"Gagster of ceremonies" Leonard Wesselsberger kept the ball rolling in the aisles with rib-tickling funny bones and his million-and-one identifiable expressions of our favorite comedian.

Honorably mentioned second Fourth Place runner-up Frank Furter made the audience say "oo" and "ah" with magical feats including sawing a board in half, changing hot ice into water, winking big knots, and making a marshmallow disappear from his mouth.

Ursula Wattersky tapped and tinkled her way to a seven-kt. gold-filled Admiree Effort Award for her well-received satirical interpretations of "Papa Hayden's Dead and Gone," "Holiday for Waterglasses," and "You'll Never Walk Alone."

Carl Lepper's remarkable "Ducts and Mr. Luffy" proved he was "so cool over the cars" by throwing the while eating a sturdy cigarette and making Mr. Luffy "sing" without moving its lips.

Students were given an exotic taste of "way out" entertainment as they were treated to Fawn Rosenberg's and Forrest Swisher's authentic hobocasin song-readings of "Greenleaves," "Hang Down Your Head, Tom Doolley," and the first portion of "Michael Rocks the Road Ashore Allstars."

"Look no, no insurance!" Gary Gerwin might well have good-naturedly quipped as he sailed down the Silver Consolation Certificate for Above Average Excellence and raced to make a five-minute guest appearance at Damon City Hospital for a major splinter removal.

A true winner of the Girl's Co-ordination Medal had her hopes dampened when state fire regulations threw cold water on "Patty Jo and her Flaming Baton."

Students were given an exotic taste of entertainment from other lands as they were treated to an authentic native "lost dance" by KHS's A-OK AFS Kuching Kanga-rooper Ddb Ojagk who brought down the house and held the stage to share a Silver Certificate and an ambulance with senior Gary Gerwin.

Kudos for Keesel Kanga-kat-ups went to four Liverpool look-alikes and their "waaa" rendition of "She Loves You Yeah Yeah Yeah." Too bad the "Mercy sound" didn't apply to cardinals!

Monochromically-attired seniors Leinbreth and Scribner performed a toe-tapping duet which while failing to win a prize earned them a special judges' exemption from the traditional Grand Finale of Encores.

Kulture-konnection Kanga-kon-somerset poked away a pouchful of pleasure as puma ballerina Naomi Eggenschwiler steamed the Judges with her choiced interpretation of the hatching scene from "Swan Lake."

"Encore! Encore!" the entire audience might well have shouted as it was brought to its feet and given directions to classrooms and extra aerial thoughts of "Encore" and stretching and cow-fishing. Once again, a whole-hearted Kaysaron Klan had proved the old adage that "talent at Kelsover Memorial High is 1 percent inspiration and 99 percent aspiration!"

"Beatnik Nite" let KHS kids 'n' kittens "get hep" to a taste of bohemian non-conformity as scintillating kanga-rebels-without-a-cause got "hopped-up" on cool jazz and hot dogs. "Bound" for Victory

And a big victory it was when in the last seconds of only the season's sixth game QB "Finch" Buster failed back for a pass to find "Ho" receiver "Zippo" Jones checked 30 yards upstream into hometown territory. Clutching the leather

owed to his sweat-drenched jersey, "Finch" flicked his eyes and ran for daylight but, blocked by Prendergast tackle "Lump" Zorogady, span on his spikes and launched it for the Lamprey uprights instead. While Kefauver lineman's famed "turquoise wave" heat it towards the bleachers on every side, Buster bobbed and weaved down the long rare yards to goal-post glory, only to almost fish the fabled when, just after a neat side-step swirl in Lump guard "Mountain" Majeck slipped on a paper drinking cup, "Finch" was tackled from behind on the TD threshold, barely managing to pounce the pigskin into Prendergast pay dirt for a six point payoff and a hard won win.

KHS was out in force for the prestigious post-season exhibition tournament in the Mobile House Bowl Arena and right from the tip-off it was excitement galore for 'Boo rooting ranks as variety Boardballers chalked up their first leading score of the year—a two-point jump on St. Vitas, which kept the Vite Five's score locked in the ought slot for more than a minute before the Web-Foot Swish-Wizards lobbed one in to level out the lay-up ledger.

Overall, it was a tough season for our board bounding Bucketteens but their play was as tough as the defeats they had to face—as was shown by the moment's-long shut-out of St. Vitas in Home Bowl display play even though Perry Parquet-Tippens finally managed a twenty-two point first quarter comeback.

Coach Postman gets plenty of confidence on our Set-Shooters' growing skills since this year's all-senior slate is a safe bet for basket bottomment in next season's play. And nice shooting, such as 'Ron Soft Shoes showed at the beginning of their big tourney vis with St. Vitas, goes to agree plenty with Coach Postman's predictions.

Wrestling

Many were the hard fought victories won by Tom Basler during last winter's action. No more had the season opened than success came the way of Grappler Hondo Vogel in a fight for life with massive internal hemorrhaging. Then K. High's "Hammer-Locher" Chip Eldridge triumphed in a dramatic struggle to regain the use of his right arm. Richard Waiser won at a walk when he fought a pitched battle with doubling spinal curvatures, and Tom Sieler licked a tricky and dangerous spleen rupture in the final period of his hospitalization. Wrapping up the season, ninety-seven-pounder Larry Sturton put a real Full Nelson on the dizzying effects of his three grave skull concussions, while prospects look bright for Eddie Decker, who should be out of Darro General by August.

A trackman's real competition is always with himself, so no one can say that anybody else beat our "slap-shoes" in '64 even if the KHS "Kangaroos" hotly contested constant striving with their own abilities and courage was occasionally marred by losing all the tension every track for this popular sport whose most popular event by far was the pole vault. Which was certainly our big school crowd pleaser because they don't call us Kangaroos for nothing and the eight-foot threshold was no barrier to Kefauver "leap-leggers" especially with the new fiberglass poles which somebody got mixed-up about with Coach Postum's fly rod during practice and Mr. Postum's brand new Shakespeare reel got caught in the high tension wire and the gas and electric company had to come and get it down with a hydraulic ladder truck which accidentally short-circuited all the electricity in the cafeteria refrigerators and the tuna straks spoiled and everybody had to be allowed to go out lunch at Burger Heaven the next day.

Slapshoes were often a "glass heel" for our "Cinderellas", here Larry Koepfer makes a "jet stop" at 400 against Ezra Tall Betman

The one win in an event we did have was our biggest, through "Zappy" Jones on the mile at 4:11 at an out-of-state meet with the Coordinator Dave Rebeck from Jefferson Davis High in Lynchburg, Tenn.

In their first year of unparallelled performance, another new KHS athletic squad broke all its own records in the space of only six months. And that was the big payoff for a team which was determined to succeed—even against itself.

The whole summer, backyard wading pools all over the Kelsover school district resounded with the cry "Stroke left, breathe right, blow out, kick! Stroke right, breathe left, blow out, kick!" Until by September, team captain Bob Baxter was ready to set a 1-56 school record for fifty-yard free-style which he swam substroke hot on the tail of cramp-plagued Hyatt "Pool-Paddler" Mark Bowen in our first league match with Warren G. Harding. Bob was far from done, though, and came back to break his own school record with a 1:18 time and Chuck Farley's backstroke and butterfly records with times of 1:04 and 2:11 while managing at the same time to also place third in the individual two hundred yard medley against Freeridgeg after disqualification of both Lamprey "Fluo-Floggers."

But success over each other was only part of our "Wave-Makers" story of '64, since they also fought a long, grueling season to get the team in shape against not only Greater Ducon schools but also in scintillating events with Y Mirrose and TunaFish Classes, the Golden Ager Angel Fish, Boys' Club Jr. Deep-End Division, and others.

C. Estes Kefauver Memorial High Marching Band

Led by the very capable Mr. Dwight Mansburden, the C.E.K.M.H.B. kanga-roo-ta-too-toters and -baniers are always on hand to help take our minds off the game and the Estettes.

"Music hath charms to soothe the savage beast," and Mr. Mansburden does just that by backing the football team with kanga-roo-ing field programs including intricate band formations which if Kefauver fans were in helicopters or Coodyear blimps would very likely spell out many fine words of encouragement such as beat, son, and go, the last word often with an exclamation mark!

This season's program also contained many "theme" members, the most popular of which, "Chattanooga Choo-choo," had the entire band form a locomotive with a smoking stack!

KHS regrets the indefinite loss of Mr. Mansburden's services for next year due to injuries suffered when a mousetrap pet exploded in Mr. Mansburden's hat.

Our group had 47 percent lower gravity!

C. Esterettes

C. Estes Kefauver High was fortunate once again this year to have the help of Mr. Milton Diller in organizing the Esterettes. A crack team of under-gradeouts precision acrobatic marching twirlers, the Esterettes furnish dazzling exhibitions of simultaneous baton magic during half times, time outs, and other exciting lulls in KHS athletic programs.

Mr. Diller, who kindly donates time from his regular duties as V.F.W. Community Affairs Council Field Representative Coordinator, gives Esterettes much-appreciable discipline and a healthful head start in the half time program of Life.

Spirit-soaked coordination plus strong cohesives helped pack them in at KHS sporting events.

Teaching Girls' Physical Education at KHS is Miss Marilyn Arambuster. She has taught us all plenty about how important the art of physical exercise is to health, fitness, and "fighting flab" because girls have muscles but are often not told about them when they are young. She is always checking our bodies to examine progress we have made in various places toward achieving the robust fitness, strong arches, and healthful stance which she teaches us are so important to vigorous and vital well-being.

Miss Arambuster works hard at teaching Physical Education. She is always on the job holding our feet while we try a hand stand, grasping us firmly by the ankles as we learn a swim stroke, or just helpfully adjusting an untied gym shoe. Thanks go to Miss Arambuster for our physical education in pep and posture which will aid us in any walk of life whether we become wives and mothers or work first.

Aqua-Hockey, played with swim fins, a weather balloon, and field hockey sticks in the shallow end of the school pool, is a personal favorite. This year's undefeated "Blue Caps" intramural team captained by Fran Poluka played our KHS faculty members in a benefit game for the Deaf Folks House. Blues were leading by six when Mr. Sweedler got caught in the filter grate and Coach Warner had to give him artificial respiration through a garden hose until the Fire Department could drain the pool.

Tumbling teaches skill, dexterity, and muscular coordination that you'll need to learn the arduous sport of tumbling which has all the grace and beauty of the dance without any of the music. Here, Fizzie Fitzerman exhibits the difficult Arc de Triomphe position which resulted in a painful cramp for even such a skilled gymnastette as Fizzie whose father had to borrow a pickup truck from the Shell station to take her home because the Nurse and Miss Arambuster couldn't get her through the school bus door.

There's plenty of good health in badminton, and our "Grey Shirts" intramural team practicing, right, got all of it in a marathon match with WOIU "Nice Guys" dice jockeys to raise money for a new Kangaroo suit after Sam Fitzerman's boyfriend had an accident in the pond on the way home from the King of Hearts Disco. "Grey Shirts," led by Captain Fran Poluka, won 7,650 to 315.

Talk about fun? Well, that's what volleyball is in a nutshell, especially when Captain Fran Poluka is serving for the "Green Shorts" team. They won every game this year except for the one where Fran was provoked for the serve she bounced off a grader in the gym ceiling that hit the back wall and then smashed into opposing player Belinda Heiker, breaking her glasses and dislocating her shoulder.

Cheerleaders

"Jump up, pop up, leap up, bounce. Hop, skip, spring, bound, vault, buck, pounce!"

The KHS Kangaroos lead the rooting for our Kangaroos, and they lend some "good cheer" to our whole school with their spirited chanting and loud yells. The Kangaroos' motto is "Alma Mater," and before every football game they lead the entire student body that came in a chorus of the Kefauver School Anthem while everybody faces the kangaroo-shaped weather vane on the cupola over the west hall south door:

Kefauver of Thee

Kefauver of thee
Sing out we for's'er.
Far from us can flee
Thy sweet memory we'er.
May our Father, stern 'sander
Of thy Founder's bright aim,
Aye excite thee, firm mentor
Alma Mater, with Fame.
And may Knowledge influence
E'en study and game.
Hallowed be thy name:
Kefauver.

Larry - it's really a really funny little school who wants to know what you got together. I'll really cheer for his team and really thought forward out to the future night. (Saw ya), Always!

Cheering youths are always an important event every year. Here, would-be "Shell Shooters" holler the KHS Fight Cheer

Hey, Team, forget that fumble!
Don't you let your spirits tumble!
Don't you fumble!
Don't be fumble!
We lost the game,
But we'll win the fumble!

Larry - To a really swell guy! Really sorry about that jam mix-up. Twink was really sick that afternoon - she must've thrown up a zillion times! Saw ya - Winky

Stand up!
Sit down!
Squat on your seat!
Lay on your back and wiggle your feet!
Hop on one foot!
Hop on two!
Who are we for?
KANG-CA-ROO!!

Interference!
Clipping!
Referee's blind!
We're not losing,
We're just behind!!

Backfield in motion!
Score's a mistake!
Give 'em a penalty!
Give us a break!

Front!
Front!
Front, punt, punt,
Kangaroo, Kangaroo,
Kick it toward the front!

 together because of the great time
 we had. Boy we had a great time
 you!!! Being. Remember that we'll
 each other in Junior Study Hall from
 we both came to the same open house
 that was really great and I'll never forget
 it and I won't ever forget either when you
 asked me to go to the Prom and Boy did I
 have to rush to get my dress ready for
 9 o'clock!!! We really had some great times to-
 gether at the Prom and at the dancing lower
 of Pizze you had to take me home early be-
 cause of all that homework you had to get done for
 Sundays but we really had fun and
 we have lots of fun this summer

Dear Mr. Boy's Dean Smudler,

This is to excuse my son Larry Kroger for his absence last Friday. He was home sick all day with a terrible case of diarrhea and Mr. O. Hinley must have been mistaken about seeing him hanging around the Daytona Spawning Co-Rest track during 4th period while Mr. O'Hinley was driving his Honor American History class students out to the Oler Historical Mound Builders Museum for a field trip and stopped for gas. Because Larry was awfully sick almost all day until he got better in the afternoon and I let him go to track practice.

Joe Fred Kroger

PREFACE

In the writing of this text, the authors have intended not merely to produce another dry compilation of dusty facts, but to bring history to life for the student as a vital, continuing drama as fresh and fascinating as yesterday's newspaper. Through this volume, we have given the student the opportunity to acquaint himself with the main currents in the American historical process, a process which on the surface may often seem chaotic, even incoherent, until these events are maturely analyzed and placed in their proper headings, subheadings, and footnotes.

In addition, the authors have designed this volume to provide insight into the great movements associated with social intercourse and that it may serve as a valuable tool in coming to grips with not only the past, but their future efforts as well.

Lastly, we hope that by reading *The American Spectacle*, the student will gain a greater appreciation of the forces and factors which led to America's taking its leading role in the postwar world, and by paying particular attention to important facts, dates, and footnotes, will not, like many unfortunates ignorant of high school level history, "be destined to repeat it" the following term.

Preface to the Second Edition

The hurried march of events, including the remarkable reelection of President Truman and the dropping of the Iron Curtain's false face of friendship, plus the many kind letters we have received from students and educators alike concerning certain minor factual discrepancies in the original work, have made our dream of a second edition a reality. The most conspicuous changes in the text have occurred in the passages relating to William Jennings Bryan, the description of whose election as President in 1892 can only be attributed to printer's errors which found their way into the galleys during the many long, exhausting hours and weekends spent in the original collection and assemblage of materials.

In addition, the authors are more than ever keenly aware of their debt to other related texts and reference works through communications from teachers, writers, and legal representatives of similar publishing ventures all over the world, and hope that the deletion of chapters 4, 7, 8-11, and 13 and their replacement with innovative transparent overlays depicting elevation, population growth, rainfall, continental water tables, and the Rise of the Railroads will provide added visual interest for student and instructor alike.

Beyond this, changes in the text include addition of copyright notations inadvertently omitted due to printer's error from certain maps, charts, drawings, and photographs kindly provided by the related texts mentioned above. The page numbers, chapter headings, and all punctuation have been completely reset as well, adding, we trust, to greater clarity and ease of understanding as well as to this volume's purchase price.

Hatching the Seeds of Democracy

"Inne 1492, hie Sayled ye Oceanne Blende . . ."
—Sir Phillip Sidney

Christopher Columbus, Marinator

The discovery of the New World by a bold Genoese navigator sailing under a snapping Spanish standard was not an isolated event, but one which took place against a rich and varied tapestry of factors, some crucially important, some so inconsequential as to walk a fine line between obscurity and irrelevancy. An entire galaxy of relations, some philosophic and economic, others religious, geographic, or technological, surround Columbus' achievement, each factor or cause clustering about this one momentous event like flies around a delicious Columbus Day sweetmeat.

First, there was the Renaissance to consider. With the reawakening of man's interest in the world around him, he began to challenge established beliefs in a flat world or imps dwelling in butter churns. New technological advances such as the compass aided exploration, as well as the map, the astrolabe, and the hull, this last innovation in shipcraft finally putting an end to seawater's natural tendency to seep into everything and dampen the

spirit of exploration as surely as it did a crew's huns and sleepwear.

Secondly, Columbus believed that by sailing directly west from Spain, he would find a faster route to the spice-rich Orient and its treasure-trove of gold, cloves, precious stones, pepper, silk, and bay leaves, valued by Europeans both for its medicinal value as well as its curative powers. It is recorded, too, that even after his fourth unsuccessful return from the New World, the implacable adventurer still hoped to find the legend-enshrouded "Garlic Mines of King Solomon," which he believed lay somewhere between Wilmington and Dover. Authorities today doubt that the mines ever existed, but if they had, they would more logically have been located in the Azores, a fact which not a few prominent historians view as a blessing in disguise.

After his final voyage, Columbus returned to his Queen and patroness Isabella and presented her, a contemporary records, "wythe one grete Parroto-Byrd boasting fyne Featherys & a foule Tongue, three Salvages, verie lousie & phlygmatick, & sundrie ynscrib'd Flagon Coasters, but noe Gold eythre in Barres, Amulets, noe symple Nougates." Colum-

bus died penurious and alone, a broken man, which many in the Aragon court considered only appropriate.

It would be resorting to hindsight to say that Columbus was ill-advised to insist that North America was India after repeated voyages should have proven otherwise, much less to infer from this he was an incompetent moron, but credit must be given to this courageous seafarer among whose greatest accomplishments can be added not discovering King Solomon's Garlic Mines.

Go West, Wretched Refuse

If Columbus' dream returned empty-handed, later ships anchored off the strange new shore freighted with destiny and later, human cargoes, although the lure of free land eventually attracted many Dutch, Welsh, Swedes, French Huguenots (hugue-nose), plus a smattering of Slavs, Serbs, Croats, Magyars, Svabs, Smegyars, and Grooms to sweeten the melting pot.

The ships transported a number of Finns and Poles in steerage as well, but these were normally lured aboard with seductive tales of a wondrous land where warm woolen socks grew wild on bushes, and subsequently kept in the bidge as ballast. Often they made several round trips across the Atlantic before being deposited at their destination which, when their eyes adjusted to the light, more often than not proved to be the Mindanao Deep.

A veritable influx of new settlers came from Europe, many of them fleeing religious or economic persecution, the latter often taking the form of pursuit by cruel "bailiffs" who under the barbaric English codes pursued their victims demanding "payment" for "debts."

In 1620, a tiny ship sailed from Holland with 102 souls bound for the verdant Virginia colony. Landing in rocky Plymouth, Massachusetts, the Mayflower's passengers disembarked, surveyed their new home, and named their navigator.

That first winter was hard, but when spring finally arrived a friendly Indian named Squanto who had seen the arrival of their "great canoe with laundry drying in tree-tops" showed them how to plant corn, first by inserting a kernel and putting in three fish as fertilizer. This method was later improved by the pilgrims themselves by delicting the fish and replacing them with three Indians.

Imagine the festive scene that first Thanksgiving must have presented! The harvest had been a fine one, and the oaken tables fairly groaned under the weight of the new world's bounty which included screaming bowls of yams, great trenchers of fresh rutabagas, whole cauliflowers, hot buttered flax-bread, beercolis, sweet-and-sour potatoes, roasted burdocks, wild thistles, acorn squash, chard, eggplant, kohlrabi, cowpeas, okra, wild turnips, curdled deer cheese, and many other "modern" favorites.

It is surprising that the myth of the "Thanksgiving Day turkey dinner" still enjoys such widespread popular acceptance. In point of fact, turkeys did not appear in North America until over 150 years later when, in 1774, Benjamin Franklin bred the first eating tom by crossing a chicken with a pig.

Ninety-nine and Forty-four One-hundredths Percent Puritan

As the Massachusetts Bay colonies developed, the rugged character of Puritanism dominated the atmosphere of the region, particularly since wasting water by bathing was considered a worse sin than sleep. The Puritans were followers of Calvinism, named for John Calvin, a Swiss cheese burger who preached "predestination," which denied the efficacy of good works in attaining salvation, thus breaking dramatically with the Roman Church, which made occasional exceptions for money orders.

Religious persecution in Europe drove many pilgrims to the new world in search of religious freedom. During the St. Andrew's Day Unpleasantness of 1623 departed above, 102,000 Jehovah's Witnesses were slaughtered in fifteen minutes by Dutch made heretic by mind-altering bread mold.

Dear of demeanor, Calvinists frowned on singing, dancing, smoking, giggling, nose pinning, and "alle mannyeres of vaiyse & ydylle Phavrie, esquyrminge in ye Pevces, alle Phydgetyng, unnercessarie blyncynge of Eiyes & vyle or naughtye Preektys beneathe ye Coverlytter," not to mention spelling. They also frowned on frowning which left them little leeway for amusements or hobbies, having to "make do" with facial ticks, skin eruptions, and disease.

The Puritans left a rich cultural legacy to the American character, perhaps their most important bequests to us being the "Yankee trader" tradition, wooden gutwings, which hunts, eggnog, and mental illness. Their distinctive "pilgrim" has can still be seen on route signs along many of Massachusetts' state and local thoroughfares.

Although their contribution was not as lasting as that of the English or the Dutch, the Swedish colonies off the coast of what is now Delaware once proved a potent force in America's early develop-

the 2 of the maye + the 1st of the new world = history of the world ← hey!

"Care for a fish fritter, chief? Dinner diplomacy was a common method for early English settlers to win the confidence of their red brethren. Traditionally, the Indians were made drowsy with teaberry brews and then fed fish fritters with "surprise centers" consisting of a flat steel ring rolled under tension and released by stomach acids into a flared inch cutting edge. Messy but effective."

ment "New Sweden," located on the St. Vikovic Islands, quickly rose to trading dominance among the Atlantic colonies. Backed by the might and prestige of the far-flung Scandinavian empire, New Sweden soon had a virtual stranglehold on the world's output of carved birds, fruit soups, enameled handicrafts, and little meatballs-on-toothpicks, this last innovation in the traditional little meatball being made possible by the new world's millions of acres of virgin lumber.

New Sweden, in part financed by Hyor Kruger, the "Swedish machi king," rapidly created major trading centers on the Vikovics. The largest of these, Svevillunngsvfen, was situated on the island of St-Bfuderbfll, and had it not sunk in a storm somewhere off the coast of North Carolina (with a supposed 10,000,000 krjner in little meatballs-on-toothpicks yet unsalvaged), history might have followed a different path, and the very text you are mutilating with ballpoints and earpick at this very moment might well be peppered with slashed o's and your last name sound like a punctured concretion.

"The Only Good Indian Is a Wood Indian"

By the early 1700s, the American Indian was increasingly hostile to the encroaching settlers, who in turn regarded the red men as rogue housepets or, at best, self-propelled garbage. Raids were common, and the outer fringes of a farm or plantation were frequently attacked, taking a heavy toll in honest yeomen and indentured servants, the taking of scalps having not yet been introduced by the French.

Settlers and Indians fought often and savagely, the Europeans using flintlocks and muskets while the Indians preferred their traditional "tomahawk" and "massacre." Possibly the most grisly of these early

clashes was King Phillip's raid on a white settlement near what is today the Nu-Mart Shopping Plaza in Gritfield, Connecticut. There, on a quiet Sunday morning in early December, 304 Quakers were surprised by 11,000 Iroquois warriors and tortured, burnt, flayed, killed, raped, scalped, scraped, scalloped, harassed, and ken by the raiding party which resented being left out of that first Thanks giving dinner, although Iroquois were notoriously picky eaters and from the perspective of history had only themselves to blame.

To the south, colonies profited from another gift of the red man, tobacco, whose use and cultivation he taught in exchange for alcohol, religion and opium.

Slaves supplied the power to tend the large plantations and were considered a form of labor-saving device much in the same way you might consider your television set a person or God. Crammed into the same dank, airless holds once reserved for Finns and Poles, many Africans died in transit, often by suicide after having heard a southern accent for the first time. Survivors who reached Charlestown harbor were treated like so much meat, prodded, inspected, and often injected with artificial coloring and preservatives, scrawny Bantus frequently marked as choice Watusi or top grade mulatto.

Once sold, the slave's life was one of unending toil in the fields, harshly herded about by drivers, although to say that they were "treated like animals"

A knock on the door on unusual times was not always a welcome occasion. Here a band of wild Indians are about to thank the settlers for a basket of Thanksgiving fish fritters sent for Thanksgiving. Though often poorly drawn, Indians were quite capable of mercy, and expert conjecture that they may have kept the one on the left around for subtle.

is to do a disservice to the South's traditional respect for fine racehorses, who not only are better than most slaves but were generally better educated.

Untying the Mother Country's Umbilical Cord

Despite a general "hands off" policy, England's clumsy manipulation of the colonial's businesses increased friction, arousing and inflaming members,

One of the first fruits of the British Stamp Act, the above specimen was affixed to a postcard sent to Lafayette from General Cornwallis concerning a *hussy* or *hussid* (the handwriting is unclear) shared by the English commander and the famous French traitor.

who threatened to rise up and shoot their scabbard.

Up until the 1760s, America was a willing part of the "mercantile system," an arrangement whereby the colonies sent raw materials to Britain in return for receipts, visiting dignitaries, and taxes. Increasingly restive about this, colonialists marched through the streets of Boston shouting spontaneous slogans such as "No taxation without representation!" and "Fie on unrestrained pow'r's presumed by Parliament in its cruel usages of her loyal but o'er-burthened subjects far frae' th' leaping waves!"

Sam Adams instigated these mobs, dubbed "Sons of Liberty" by the euphemistic British press, and staged mass protests, often playing a major role himself by prompting from behind a stout barrel or sturdy yewman. The most famous of these demonstrations was the "Boston Tea Party," in which a band of men dressed as Indians boarded three British ships and dumped 500 sacks of tea and a deceptively sacklike cabin boy into Boston Harbor. It is said that this accounts for the slightly restinous flavor and brownish tinge of tapwater still served at the faithfully-preserved pubs and inns lining quaint, historic Washington Street.

In response to this, the British Parliament immediately voided the Intolerable Acts of 1773, followed quickly by the Repressive Acts of 1774, and finally, Parliament being what it is, the Unnatural Acts of 1776, these last measures also taking a stern view of colonialist' check.

As hostilities increased, America was fortunate to be led by a group of remarkable men. Aristocratic Thomas Jefferson, a framer of the constitution and handy with aphoristry, not to mention a wizard with leftovers, was the inventor of many useful devices. He devised the first folding pocket comb, the storm window, and an electric horse which might have changed the course of modern technology had

Benjamin Franklin, with whom Jefferson had quarreled, not refused to lend him sufficient current from a Leyden jar he kept under his wig. Monticello, designed by Jefferson, and believed to be the first building in North America with storm windows, was a classic of its time.

Franklin, a Philadelphia printer, served valuably as Ambassador to the Court of St. James and later, England and France. Here the portly aphorist delighted the French court with snippets from *Poor Richard's Almanac* like "Ring around the moon; go home soon" and impromptu "water harmonica" concerts on dinner goblets. It should be noted that the French court of the time may have enjoyed a considerably greater capacity for such delights than we do today.

Before his death in 1811, Franklin had invented the lightning rod, the Franklin stove, the bifocal lens, the Franklin saffle iron, and the storm door, which Jefferson took as a personal affront.

Lastly, George Carter Washington, called the "Father of His Country" by those unaware of what Jefferson did with his spare time, proved to be an able leader if difficult to understand through his wooden bridgework which legend has it he whittled himself out of cherrywood after his father punched his teeth out. His impeccable character made Washington an ideal President, and his imposing height plus an unruly resemblance to a dollar bill struck a chord in his troops and made him an excellent rallying point on crowded and confused battlefields.

While not a brilliant military tactician, George Washington excelled as a statesman and as a female impersonator, the latter talent pairing the General in good stead with his men when, during their ordeal at Valley Forge, he entertained the troops with "baldie stives & dussiness." Washington died penniless and alone, plagued until the end of his days by parasites of the stomach and an almost constant semi-erection (see illustration).

The Shot Heard 'Round the Horn

On July 4th, 1775, a detachment of British regulars led by General Gage encountered a troop of "minutemen" at Lexington and Concord. Ordered not to fire until they saw the whites of their eyes, the American forces were unaware that a conjunctivitis epidemic had swept the redcoats' barracks the week before and the rebels were easily dispersed.

So it was that the dam erupted, and the American Revolution flexed its wings, borne on a wave of inflammatory grievances and ignited by the thirst for freedom.

In the next chapter we will see how the rebels sought popular support in the ensuing conflict, and how, from the heady early victories at Gornersy Creek and Flushing Meadows to the dark days at Valley Forge, the American people ran around like a bunch of chickens with their heads cut off until the British finally got fed up and the French agreed to pull our chestnuts out of the fire.

"To arms! To arms! The British are coming!" These words shouted from horseback electrified the New England countryside as Paul Revere warned of the imminent English invasion. It is a little-known fact that "Paul Revere's ride" was undertaken largely in jest. Revere's mount Dan, the Wendehorse, having died of a stroke while parked at a light.

Mastering What You Have Learned

In Your Notebook

1. What were the sea dogs? Was it difficult to walk one?
2. Why were missionaries so eager to convert the Indians? How did their conversion work? Ocean powered?
3. When was the House of Burgesses founded? Was it ever lost?
4. When Patrick Henry said "Give me Liberty or give me death," was he serious? Sober? Can you be sure?
5. Of all the massacres you have studied thus far in the term, which is your favorite? Write a report of a massacre as it might have appeared in *The New York Times*. Then, write one as it might have appeared in *The National Enquirer*. Do not show it to your teacher.

Unrolling the Map

1. Reproduce for display a map of the world as it was known by the Ancient Greeks. Now make one as it is known by the Modern Greeks. How do you account for the similarity?
2. On an outline map of the United States, color in the parts of the country where they say "frappé" for milkshake and call soda "tonic" and serve it warm without ice.
3. On the same map, plot the major military campaigns of the French & Indian War. Now, taking a sheet of wax paper, place it over a modern road map of the same area and trace as colored pencils off the four-lane interstate highways running through the region. Then make a floor and water contour representation of the entire scene on the kitchen table. When you are finished, blame the mess on a little brother or sister.

Food for Thought

1. What was George III's real last name?
2. If the Indians had the atomic bomb, do you think they would have used it? Would you?
3. Why did the colonists drill on the village greens? Do you

feel this shows a disrespect for all vegetables? Some vegetables!

4. If Sam Adams was considered an agitator, how did he escape being made into handbags by the British? Discuss.
5. Who were the Quakers? Where did they get the idea for pulled oats? Was there any basic consideration between their pacifist creed and having their pulled oats "shot from guns"? 6. Much of the Proseable to the Declaration of Independence can be found in the work of John Locke. Do you suppose Thomas Jefferson's desk was behind him in class? Would you have told on him?
7. The founding fathers stated "all men are created equal." Do you think they were serious? Or what?
8. John Adams once wrote, "The Revolution was effected before the war commenced. The Revolution was in the minds and hearts of the people." Was he serious? Was he running for anything at the time?

Class Activities

1. Draw up a list of grievances and present it to your parents or teacher. Does this help you understand their usefulness? If you wish, you and your class may want to draw up a declaration of war.
2. Quote an appropriate maxim from Poor Richard's *Almanac* every time you observe someone in need of advice. How long do you suppose it will be before your teeth are punched out?
3. Divide your class equally into "patents" and "series." Designate one "tory" to be a "British tax collector" and tar and feather him. (Note: If tar and feathers are not available, you may substitute white paste and bits of torn construction paper.)

Brain Teaser

1. What do you think the outcome of the Revolutionary War would have been if George Washington had been born a horse?

EL

While in other fine plays by Shakespeare his view of "politics" is often hard to put your finger on, in Macbeth which I enjoyed reading and rereading it is not.

AWK! To prove this, one must support one's findings by citing the specific scenes and quotations the main character in "Macbeth" makes in regard to his own feelings about "ambition" not to mention "politics" ... scenes and quotations often too numerous to mention in an essay of this type but which will be listed below, time permitting.

AWK?? While there is no reason to believe that Shakespeare himself was ever involved in politics or ran for any office besides Bard of Avon, the ~~the~~ key to the complex relationship between Macbeth, "ambition," "politics" and "thanes" might well be found by turning our attention to a specific scene ... the "scene" of the play itself which the audience or careful rereader knows by the title alone is ~~not~~ Scotland.

Ambition, considered by many as either a good or a bad trait, is treated in Macbeth in much the same way that "the Bard of Avon" deals with many other character traits in this and his many other fine plays.

Inherent Scotland, even in Shakespeare's time, was known for its excellent plaid kilts and "penny-pinching" masons, that is, men who valued money, which can only be made in great quantities by ambition: (cont. on back of 2nd page of test)

- X The character Stally Tomak in Arthur Miller's play Death of a Salesman wishes to be "well groomed."
 X In Edwin Arlington Robinson's poem "Richard Corey," the title character, though rich and "imperially slim," one day surprises the town by gaining weight.

This is an unacceptable essay.
 I can hardly believe you
 even read the play!

QUESTION

It has been said that Shakespeare's Macbeth is not so much a tale of a thane's ambition as it is a lesson in politics. Agree or disagree with this statement citing specific scenes and quotations and support your findings with direct references from other works you have read this year. Use the back of this test and your own paper, should you need more room.

X Macbeth X: Ambitious or Politician?

That the great William Shakespeare's famous play X Macbeth X (which I may add is one of my personal favorites) is "not so much a tale of a thane's ambition as it is a lesson in politics" is a statement that may be easily agreed or disagreed with. Remarkably enough, the real answer to this question has a great deal to do with how ~~Shakespeare~~ the playwrights might have felt about "ambition" and "politics" himself!

Certainly, as the world's most famous writer, Shakespeare himself must have had some "ambition," but is it the same "ambition" felt by the thane mentioned above? I think not. Shakespeare's feelings about "politics" are not so clearly stressed.

DACRON PUBLIC SCHOOLS

Pupil Growth Report—for grades 9 through 12

Name Lawrence Kroger
 Grade 12
 School C. Estes Kefauver High School
 School Year 1963-1964

This report has been prepared to give parents a complete and accurate description of their child's ability, intelligence, aptitude, future potential, and personal worth. Long experience has proven the validity and reliability of the marking system used and such marks are an immediate matter of record.

Parents of pupils with an excellent report should be justly proud and to them the School System extends its congratulations. Pupils with average or normal marks have, on the other hand, been consistently shown to lack exceptional ability in important physical and academic fields. They should not, however, be cause for dismay by pupils or parents. Steady employment and application may eventually reveal an aptitude or facility in some vocational field and thereby a productive and regular life may be led. Not all average marks preclude a stable marriage and satisfying home life.

When a report shows very poor marks the full line with the pupil and he or she should be so informed. Not all have the ability to attain highest marks but average grades are within the reach of all. Much like a doctor's report of malnutrition, poor marks require immediate attention—in the form of increased discipline and removal of unproductive habits and companions. A conference with school officials will be found helpful in this regard.

Alterations of or tampering with any Dacron School System Pupil Growth Report is a violation of the law punishable by a fine of not more than \$500 and imprisonment for not more than two years.

CUT ALONG HERE

COOTIE CATCHER

INSTRUCTIONS

1. Cut CATCHER out along "cut" lines. (Use razor blade for the hard one.)
2. Turn resulting square over to side #2.
3. Fold corners 1-4 to center as shown on back of these instructions.
4. Turn the smaller square over and fold 5-8 the same way so you have an even smaller square.
5. Insert thumb and first three fingers into the four pockets that are thus formed and fudge around until it looks like 5.

HOW TO USE YOUR COOTIE CATCHER

1. Holding CATCHER so that VICTIM sees only blank interior portion, tell him you are "hunting for cooties."
2. Scratch VICTIM's scalp with CATCHER and, quickly shifting finger positions, show him the MAGICALLY REVEALED COOTIES!
3. Blow sharply on CATCHER and, simultaneously flicking wrist, switch fingers quickly and show VICTIM the empty CATCHER!
4. If you failed to follow directions, you probably fucked up several instructions ago. You can get a new square of paper and start again, drawing your own COOTIES in yourself, dumb-bell!

One-Way Stairs — Student Government in Action

by Chuck Farley

Self-government for the KHS student body means student independence and responsibility. That's why when Student Council members observed all the unnecessary crowding and hall-way traffic jams they realized their responsibility to take legislative action and they were quick to act on the suggestion of Dr. Cornholt that certain staircases be designated down only and other staircases only up, for a trial period of one year. The change has been dramatic. Now, instead of enormous masses of students going up and down the stairs there are large crowds of students going down the stairs or up.

Student Council President Chuck Farley is proud of this latest KHS Student Government achievement. He states, "One-way stairs are an example of dynamic traffic control such as is being used in large high schools throughout our nation. Let me say now that I am very glad that Kefauver will not be

among the last to find the time value of traffic direction."

This has been a landmark year for student self-government at KHS. Settling such potentially explosive issues as crowded halls and the prom dress debate without harmful controversy plus institution of a Student Court to handle all rules infractions involving a penalty of less than fifty Citizenship Demerit Points, not to mention placing a student suggestion box outside Room 211, have set real precedents at KHS. It's only one more way we've shown our teachers and parents that a new, mature generation of students have come to high school—a generation able to handle independence and responsibility.

There are some grumblers, however, who are saying that one-way stairs don't make any difference. It's hard to see how they can say that when so many students go up and down stairs every day. It's these people who think it's a laugh to go up a wrong staircase or down a wrong staircase during lunch or class periods when there isn't any traffic and no one's looking. But it should be remembered that one-way staircase rules have been passed by Student Council and so become school "laws" the moment they were passed and received advice, recommendation and administrative approval. And they carry a sixty-point Citizenship Demerit penalty for violation any time during the school day or when extracurricular activities are being held. So let's all pitch in and put an end to "Hell way Back" at Kefauver High.

Wave of Vandalism Strikes KHS

Culprit "Sick, not funny" Says Dr. Cornholt

C Estes Kefauver High was the victim of its fifteenth major act of vandalism in as many weeks. Prison newspapers were informed last Thursday afternoon in a hastily arranged special assembly called by Principal Dr. Humphrey C. Cornholt. The vandalism, described to be the "work of a seriously troubled rule-breaker or rule-breakers unknown," was discovered in a downstairs boys' lavatory by Hall Monitor Carl D. Lepper immediately following an unannounced three period fire drill

reason.

The large four letter word measuring approximately six by fourteen inches and the attendant vandalism in the wash-basin are the most recent of a series of related incidents, according to highly placed safety patrols. Since after the Christmas holidays, Kefauver High has been plagued by similar vandalism including willfully defaced plaques, walls, wastebaskets, lockers, water fountains, behind hot radiators, bag lunches, gym shoes, mirrors,

Principal Cornholt says feet is kicked.

The vandalism, found stopping up a sink as Lepper routinely inspected the washroom for smoking materials, was accompanied by an obscenity on an adjacent wall. Upon closer inspection, custodial engineer Stanislaw Dupis verified that the obscenity was written in the rule-breaker's own vandalism and subsequently tendered his resignation to Dr. Cornholt citing this and other vandalism, including one in Mr. Dupis's lavatory last month, as the

school has gas tanks, teachers' lounge water cooler, cafeteria trays, art supply cabinets, and the new Student Council sponsored Student Suggestion Box which Class President Chuck Farley had hoped would be "a spur to good citizenship and an opportunity to air student woes and gripes. Instead, the only thing that's gotten aird out is the Student Suggestion Box."

In the unprecedented lunch period special assembly, Dr. Cornholt declared that further

Kefauver "Einsteins" Battle TV Brain-Teasers Sail Through Sums, Stumped by Gumwad

Television was made a reality for two lucky seniors last Sunday morning at 5:45 A.M. when they challenged Our Lady of Pain in WPOX-TV's weekly "High School Knowledge Bowl." The "Knowledge Bowl" pits brains, art brains, against each other for cash valued premiums and bulk awards, as well as a \$100 scholarship to the college or university of their choice donated by the Van Hosen Mobile Home Company to the annual champion.

Leonard Scrabbler, '66, and Belinda Henke, '64, this year's salutatorian and valedictorian respectively, represented KHS last week against two Our Lady of Pain seniors. While the final score of 695 in 15 seconds notwithstanding, both Scrabbler, who was fourth runner-up in the state-wide Science Fair Exhibit Competition for his project "Fun With Bread molds," and Henke, who hosts Kefauver's coveted Current Events Bonus and this term's hotly-contested Perfect Attendance Citation, answered all questions politely and promptly, much of the blame for their disappointing showing being traced to Scrabbler's mistaking a job of hardened chewing gum under his table for the answer buzzer.

The plucky Kargammatians easily answered "States and Capitals," "Mathon the March," and two out of three "Tricker

Lord" brain-bogglers, also breezing through the special bonus "Spell That Color" and "Name That Shape" skull-scrappers, but lost valuable seconds and points as Scrabbler's fingers became increasingly cemented to the warmed-up old gumwad.

Incorrectly identifying the Canadian Soldier as the State Bird of Ohio, Henke also mistakenly recognized "er" as the formula for cubing a sphere and stumbled again as she gave the sign "HO" as the formula for the volume of a swimming pool.

Finally, the Kefauver Kargammatians fell anxiously behind the Our Lady of Pain team when they named Booker T. Washington as the "First Negro father of his country" and a magnified frog heart as Australia.

Despite their disappointing totals, KHS eggheads spent many long hours of preparation quizzing each other on important dates, facts, names, and fractions which will come in handy on the "Knowledge Bowl of Real Life" if not the one of TV.

While the team failed to gain a ring on the ladder to the \$100 scholarship, team coach Dwight Mammberian looks forward to next year's contest when seniors Gilbert Scrabbler and Belinda Henke will be freshmen at the college or university of their choice.

Printing Error Keeps Leaf and Squib Out of Circulation

A printing mistake with a student drawing caused the KHS literary magazine *Leaf and Squib* to go off sale last week. *Squib* editor Forrest Swisher said Dr. Cornholt had pointed out what a mistake it was to print that drawing. Dr. Cornholt later had a helpful discussion with the *Squib* staff emphasizing that the body is the sacred temple of the spirit and art is the sacred temple of the mind

and we should keep both neat and clean.

When asked what would be done with the leftover copies, Editor Swisher said that Dr. Cornholt had noticed some other errors too and so they couldn't just take out page 10 where the drawing with the mistake was. Asst. Art Editor Paul Rosenberg suggested that all the issues be shined or crummed someplace out of the way.

TEEN CANTEEN OPEN

Youtherans, the Lutheran young people's organization, has opened a Teen Canteen in the basement of the Parkview Lutheran Church at the corner of North Cove and Upton Avenue. The new Canteen is nondiscriminational and teens of all faiths are welcome. Youtherans Coordinator Reverend Ott Peterson is very happy with the Canteen idea. He says, "Churches should get involved—tackling the real problems in this world. And the lack of a nice place to have fun is one very real problem for today's teens. After all," he says,

"Christ was once a teenager, too."

Only six blocks from KHS, the Youtherans Teen Canteen will be a big plus for Kefauver students' recreation. It already has two bumper pool tables and it will be open until 9:30 p.m. every night. Many activities are planned including bumper pool tournaments, bumper pool, bumper pool teams, and city-wide bumper pool play-offs. The Youtherans hope to get a Coke machine soon and plan to hold a dance in the church gym this summer.

VANDALISM

What worse criminal is there than the school vandal? For almost any other crime there is a reason—no matter how bad a reason. But the school vandal doesn't need a reason. Even the Nazi Germans thought they were doing the right thing. But school vandals know that what they are doing isn't right. Everybody is harmed. And in one of the most important places, too—the American institution of free education for all. Education is free in this country but that doesn't mean it doesn't cost anything. And all the money spent cleaning up the disgusting vandalisms smeared around our school could be spent on valuable educational aids such as more language lab earphones, new view projectors, and a new gym. But that doesn't stop the vandal. A vandal's the kind of person who invaded South Korea. He's like a senseless murderer who kills for no reason—murdering valuable new helps for learning that our school could have had, even worse, murdering the peacefulness and orderliness of our halls and classrooms which are so important to receiving a good education which we're all getting the chance to have. Some of us might not get into college. And that's murder.

ONE-WAY STAIRS

And what about those people who disregard the "rules of the road" on our one-way staircases? Aren't they just about the same as school vandals? After all, they are vandalizing everyone's valuable time by causing unnecessary crowding and halfway traffic jams when, in fact, it was unnecessary crowding and halfway traffic jams which caused the Student Council (with a helpful suggestion by Dr. Cornholt) to pass the legislation which gives us one-way staircases in the first place. Everyone should remember that this is only a trial period and if we don't give the one-way stairs a fair trial period then how will Dr. Cornholt know whether to suggest that the Student Council make one-way stairs permanent forever or suggest that we go back to the two-way stairs we had in the past? Why all the harmful controversy?

COMPROMISE

Speaking of harmful controversy, let's not forget that there's one most important basic principle which rests at the foundations of the American Way of Life—compromise. And we can find a great lesson in compromise right here in our school this spring. Remember the heated debate over "Formal Dress for the Senior Prom"? Some students felt that requiring formal wear put a strain on the budgets of students from less fortunate families. While other students felt that Kefauver High should maintain its important traditions. There were good arguments on both sides, but harmful controversy was avoided when Student Council President "Chuck" Farley proposed that required formal dress continue but that all corsets and bustleholders be identical and moderately priced. Thus, less fortunate students were partly spared a large expense. And the main look beautiful, too. That's the kind of thinking we need more of, and that's the kind of thinking we should all apply to the one-way stairs.

SCHOOL SPIRIT

But, important as compromise is, there are some places where there's no room for it. School Spirit is one of those places. And School Spirit is exactly the place where most of us compromise "Not enough School Spirit at KHS?" How can that be said," you may say, "when almost every sports event is packed with cheering students and nearly every victory or loss seems to be almost a life or death matter for most of our students?" But real School Spirit is more than cheering our many teams and being peevish and loyal to Kefauver High. Real School Spirit is obeying all the rules

Class Gift Selected

Members of the Kefauver High Class of '64 have decided to go together with the Class of '65 to present one large class gift to the high school. The officers of the two classes gathered and after a discussion they decided to donate a Senior Drinking Fountain to be installed in the West Hall foyer. The drinking fountain will bear an inscription reading "Gift of the Classes of 1964 and 1965." Only seniors will be permitted to drink from it. Thus, the class officers felt, not only would KHS seniors be provided with another welcome drinking fountain but Kefauver would also acquire an important continuing tradition to be passed down through the years, helping to add prestige and pride to the position of Senior student.

Past class gifts have been

many. The Class of 1955 went together with the Class of 1956 to donate brass plaques inscribed with the Lord's Prayer for every classroom. The Class of 1957 donated the Senior Seal in the floor of the main East Vestibule and which it is a continuing KHS tradition that only seniors can walk on. The Class of 1959 gave us our four-foot-high cement statue of Jumpy which stands in front of the football practice field. The Class of 1960 donated a bench. The Classes of 1961 and 1962 went together to have all the Lord's Prayer plaques removed. And the Class of 1963 bought the orange and turquoise window shades in the Senior Study Hall.

"Camelot" Senior Prom "Joust Delightful"

The lore and legend of King Arthur's Round Table was made a reality for a group of lucky lords and their ladies last weekend as the Class of '64's Kanga-Krusaders stormed the gym for their "mash-headed" Class of 1964 Senior Prom!

Starting off with a "Proclamation of Fun" from "Sir Duncote" (a thud-tinged well-known Health and Drivers Ed teacher in shining armor), followed by a grand procession under the Pavilion of Coe Paper and a stop at the Round Table of Refreshments, the evening was topped off with another remarkable demonstration of the Charleston by Mr. Dwight Mansourburden and Mrs. Neven Fitznerman.

When the chimes of midnight struck, the enchanted scene, a fantasy of Arthurian castles, parapets, and balcon-

bedecked basketball hoops, was "turned back into a pumpkin" as chivalrous Kanga-Krusaders plucked swarms of the pilsa event for their fair damsels, including gaily-decorated post-patrol "ispentres" and the Holy Hawaiian Punch Gren which Dr. Cornholt would like returned immediately along with the band's accordion and he isn't kidding.

The after-party in the parents of Woolworth Van Hosen III's very gracious and elegant wood-paneled campus room was an added "boon" as the feodal fan-seekers toasted the future with their favorite chips 'n' dips.

All in all, the Class of '64 agreed that the evening was a great success, and despite the unbecoming behavior of a certain small element of the guests and the unfortunate car accident resulting in the death of six graduating seniors and their dates, a good time was had by most.

Student Court Means Student Independence AND Student Responsibility

Our new Student Court moved into gear last Tuesday with its first case under the new rules allowing students who've violated a rule which carries a penalty of fifty Citizenship Demerit Points or less their choice between going to the Dean's Office or being tried by a Student Court of their peer group.

The institution of a Student Court is a landmark precedent in the annals of KHS student self-government, allowing students themselves to set up and participate in one of the basic foundations of justice and democracy in our nation, which is our national judicial system. Student Council elected Student Council President Chuck Farley to be this year's judge. Dr. Corbick appointed Senior Carl Lepper as Student Prosecutor and Wasky Dangler as Court Stenographer. And Hall Monitors have promised to supply a Sergeant at Arms for each trial. Student Court trials will be held during sixth period study hall. Students being tried can pick any other student their age as their "lawyer," and either side may call any student witness who isn't in class that period.

The first case in a Student Court trial got started when Hall Monitor Naomi Eggen-schwiler observed Junior Patty Jo Shinski wearing a skirt with length that fell above the knees. Naomi reported this violation of the KHS dress code to Hall Monitor sponsor Miss Ambruster who ordered Patty Jo to come to her office where she was given the "carpet kneeling" test. Patty

Jo's skirt did not touch the carpet when she was in a kneeling position as KHS dress code requires, but since the skirt was less than two-and-three-quarters inches above the carpet (and therefore the penalty for wearing it was forty Citizenship Demerit Points instead of eighty, which it would have been if the skirt had been more than two-and-three-quarters inches above the carpet). Miss Ambruster gave Patty Jo a choice between seeing the Girl's Dean, who is Miss Ambruster, or being tried in Student Court and sent Patty Jo home to change her skirt so that she was only counted two-and-a-half periods absent without an excuse instead of being sent home for the entire day. When the trial began, Student Prosecutor Carl Lepper called Sergeant at Arms Naomi Eggen-schwiler to testify that Patty Jo Shinski had been wearing the skirt which he had as evidence in the Court because Miss Ambruster made Patty Jo bring it back to school with her after she went home to change. Naomi said that Patty Jo had been wearing the skirt. Then Carl called Patsy Albright as a witness and Patsy said that Naomi was always very honest and she'd seen Patty Jo wearing that skirt before anyway. When it was the defense's turn, Patty Jo pleaded that she had accidentally biked the skirt up too high when she was tacking her blouse in in the girls' washroom. Student Judge Chuck Farley decided that Patty Jo should get forty Citizenship Demerit Points

TEN YEARS AGO IN THE PRISM

Class of '54 had just returned from Senior Trip to Washington, D.C. Student Council was debating new "keep-left" hallway passing period regulations. Principal Howard M. Conrad suggested a two-semester trial period. Class play, *Roméo and Juliet*, debated to raise reviews. From theme was "Castles in Spain" North Lawn's Senior Elm Tree was planted as Class Gift. From editorial deplored broken windows, asked student cooperation in keep-left passing periods. Y-Term opened special "Young People's Lounge" at West Dacron Branch YMCA. Homecoming Queen Mary Jo Hall won 2nd place in Friendly Order of Opossum Talent Contest. Veterans of Foreign Wars volunteers were helping School Librarian Miss Violet Coolidge cart away old sets of John Dow Passes novels. Student Department Tribunal was instituted to assist in disciplining student department violations. Dapsote over Class Rings ended in a compromise when Class President Ernie Siroppis suggested that gold plating be kept but rings should be offered in only one style to spare expense for students with modest means. "Inquiring Kangaroo" asked students how they felt about new passing period regulations. KHS baseball team lost close contest to Warren G. Harding 15 to 0. Football Awards Dinner saw Senior Q.B. receive league-wide kudos for "Most Yardage Gained on a Statue of Liberty Play" And Ballroom Dance team scored first in city.

Patriotic Group Helps Annual Library Cleanup

After a whole school year of checking out books and having them returned (sometimes late with a fine!), our busy school library gets pretty confused! And now's the time to be putting everything in order, neat and ready for next fall's whole new class of Kefauverites and "Rettles" and all the returning students who'll be coming back. So, last week, it was time for the annual library cleanup.

This year, members of the Fluegenia Batista Chapter of the Christian Anti-Communist Crusade volunteered to help school Librarian Violet Coolidge straighten things out.

There's only so much room in a library and Miss Coolidge and her volunteers have been really busy deciding what books will

serve all Kefauver students best. A choice has to be made between important books which help us in our school work such as *Collier's Encyclopedia* and other books which there may not be room for. As Miss Coolidge says, "Shelf space is just like space in our minds."

When spring cleaning was done Miss Coolidge and her helpers had made room for a second complete set of bound *National Geographic* plus extra copies of *I Saw Poland Burned*, *The Invisible Government*, and *Masters of Deceit*. But it looks like there won't be room for the old Upton Sinclair books, back issues of *Saturday Review*, or a subscription to the *Sunday New York Times* next year.

KHS Student Places High in Miss Teenage Dacron Contest

The pride of Kefauver High was on display last Wednesday night when KHS senior Amanda Peppridge (this year's Homecoming Queen and Kangaroos Captain) won third runner-up in the Miss Teenage Dacron Contest. Amata was awarded a beautiful green Ford-Ford Travel Test complex with screened windows.

Every year the Miss Teenage Dacron Contest is held to select the best rounded teenage girl in Dacron. The winner goes on to participate in the Miss Teenage State County Contest at the County Fair next fall. Entrants are judged on the basis of charm, deportment, tidy appearance, and talents. Also, each contestant must give an original speech on the subject, "Why I Want to Be Miss Teenage Da-

cron." Amanda Peppridge recited Edgar Allan Poe's poem "The Raven" as her talent contribution and titled her speech, "My Reasons for Wanting to Be Miss Dacron Are Twofold—First, to Someday Proudly Represent Dacron, Ohio, in the Miss Teenage Midwest Contest in Indianapolis. And, Second, to Meet New People in All Walks of Life."

The title of Miss Teenage Dacron went this year to Annette Velocpeda, Junior at Our Lady of Pain, who was a completely furnished horse trailer and a \$400 scholarship to the college of her choice. First runner-up went to Andrea Pettibone of Warren G Harding High, while second was captured by Constance Nowakowski from Pendergast.

Vandalism

vandalisms would "not be tolerated, even if it means boarding up all lavatories or requiring a buddy system for their continued use."

Dr. Corbett went on to stress the importance of students' cooperation in identifying the "criminally delinquent" individual or individuals, and announced the posting on all bulletin boards of 500 Good Citizenship Credits to any student for information leading to his capture and expulsion. A number of suspects have already been sent to the Principal's Office for questioning while Hall Monitors and Lavatory Patrols have been doubled as a purely precautionary measure. In addition, Principal Corbett remarked, he has named a number of "Special Anti-Vandalism Auxiliaries" from the seventh and eighth grades empowered to make "Good Citizenship Arrests" and who are temporarily excused from the General Department Rules against unnecessary talking and sitting on fellow pupils.

"These are stern measures," Dr. Corbett remarked, "but the situation is getting out of hand, and if the so-called 'Mad Vandal' does not report to the

office by next Thursday, no final report cards will be given out, and Eskimo Pie and chocolate milk privileges will be denied all students, guilty and innocent alike." Dr. Coraholt also said recess periods might be seriously curtailed.

Since early in the term, Dr. Coraholt told the entire student body as they stilled down to listen attentively in the gym, the rule breaker or "Mad Vandal" as he is known to some students has made many locations within the building and grounds unfit for healthful classroom activities, disrupting regular routines and causing upset among the girls.

The "Mad Vandal" has already gained the unwelcome attention of the *Dacron Daily Telegraph* in a series of feature articles and editorials, the last of which, entitled "Outrage Stalks the Halls," was read on television station WFOX.

Past vandalism on school property, while displaying no particular pattern, are more difficult to find the perpetrator of because they often occur during free drills, school assemblies, mass pep rallies, or after school hours. The first vandalism, which was discovered floating at the school swimming pool by Senior Robert Baxter, Jr., while breaststroking against St. Vifon, and which may have contributed to Baxter's poor time, was estimated to have been committed while most students were attending Booster Day Activities in the gym. During the assembly, a delegation from the Varsity Club presented Dr. Coraholt with the annual "Principal of the Year" award after calling him away from his regular duties.

Dr. Coraholt has already assured concerned parents, PTA members, and School Board Officials that while vandalism of such seriousness had never before happened at Kefauver, Dr. Coraholt was not going to sit idly by while "some sick, twisted youth or youths foul my many transmuted years as an educator. These vandalism are even becoming a hazard to the orderly flow of hall traffic, and I think it's time for somebody to put their foot down. That foot is me."

Sr. Trippers Bus to Big Apple Good Time Had by All

The glamour and glitter of Manhattan, New York, was made a reality for six lucky Kangroosers a few weekends ago when Sam Fitzerman, Gilbert Scabbler, Woolworth Van Hesen III, Patricia Ann Albright, Wendy Ann Dempler, Leonard Wosenheimer, and Senior Trip Sponsor Mr. Duane Postum enjoyed a memorable and unforgettable weekend in one of America's largest and most exciting metropolises.

"I never thought the buildings were so tall!" remarked Sam Fitzerman, '64. "Now I know why they call them 'skyscrapers'!"

"And with all the dog vandalism on the sidewalks," added Leonard Wosenheimer, "they should have built a few footscrapers, too."

Departing from the Downtown Dacron Greyhound Bus Terminal, Ohio's prior ambassadors of fun motored almost straight through, stopping only for a short sight-seeing break while the bus fixed a flat in very interesting Buffalo, New York. "I never knew it took so long to change one of those tires," exclaimed Sam Fitzerman, '64.

When the globe-boppers checked into their rooms at the very famous and economical Penn-Garden Hotel, located at the heart of New York's fa-

mous street district, they went immediately to the Empire State Building ("or Empire State Building?" adds Leonard Wosenheimer, '64), stopping off only for a few minutes at the seventy-ninth floor so that they could "snoop" and Gilbert Scabbler, '64, could get a Kleenex for a had nosebleed.

Traveling around the city, the Seniors learned many new and interesting things, including the surprising fact that a taxi ride from Forty-second Street and Seventh Avenue to Times Square cost a whopping \$15!

Sadder but wiser, the travelers soaked up other remarkable sights, sounds, and smells, including the very interesting *Ragley's Believe It or Not* exhibit featuring a very interesting miniature log cabin made completely out of Lincoln head pennies, the angry rat-on-tat-tat of noisy jackhammers, and the many dog vandilisms on the sidewalks. ("Instead of 'Cush your dog,' the sign should read, 'Oh, forget it,'" commented Leonard Wosenheimer, '64.)

The high point of the trip was, of course, the 1964 World's Fair held at Flushing Meadows, New York. There they inhaled many heady sights and sounds such as the Pepsi Cola Pavilion, with its many wonderful

and interesting Disney-animated mechanical foreigners who sang "It's a Small World After All" over and over and over again ("I never knew anybody could sing the same song so many times," reported Kangarambler Wendy Ann Dempler, "not even robots. The mechanical sidewalk broke down and we had to listen to it over and over again. Gilbert counted we listened to it 302 times until he lost count on account of his real had nosebleed. It was kind of creepy.")

Other remarkable sights and views they saw were the GE Carousel of Progress, which gave a very interesting lesson on important breakthroughs on advanced refrigerator technology. Also, the Fortnum House, made entirely of Permalloy, and the Court of the Universe, where tired toes dabbled in the Fountain of the Planets until somebody yelled at us.

Back at the hotel, Mr. Postum found that the bill for the weekend included phantasmic bills for certain plumbing that was damaged from an unidentified cherry bomb in the pipes and everybody arrived back Sunday night, tired but happy that they had peddled the core of the "Big Apple" and had found many juicy stories as well as the pits.

Court Kangaroos Lose St. Vitus Trial

by Charles Elmer Farley

When the Kefauver varsity hoopers faced the St. Vitus Academy netmen Saturday, May 2, many thought the Kangaroo roundballers would be blown out of the almost fully-repaired Mobile Home Bowl Arena by the Penguin eagles. Not so! Bob Baxter, Jr., playing the pivot for the Orange and Turquoise skatersmen, won a rare center tap to open the initial stanza, and, seconds later, Kefauver guard Madison Avenue "Zippy" Jones faked his man into tripping over one of the several remaining uneven spots on the Arena floor. Switch! The 'Roo backcourt specialist's quick turnaround jump shot dented the twos, and the up-and-coming Marcupal perimeter found themselves holding their first lead of the season!

Time was not on the side of the ill-starred C. Estes icecreamers, however, as John "Johnny Boy" Vaglant, stalwart for-

ward for the St. Vitus bucketmen, laid in the equalizer, and the Penguin dribblers went on to defeat our 'Roo-bounders by the quite convincing margin of 73-17.

High scorer for the KHS hardwoodmen, who once again sorely missed the services of the late Howard Lewis Havermeyer, was Vince "French" Lambretta, who dropped in a season-high total of seven points for the Kefauver courtiers.

Next Saturday, Coach Duane "Instant" Postum's winless swasties will again take to the still-warped floor of the Mobile Home Bowl Arena, where they'll play host to the Fender Bender's Tucker Technical High School. The game will mark the end of the campaign for both sides—a campaign delayed for more than two months by repairs to Deacon's magnificent, but seemingly jinxed, new sports facility.

Sharp-sho-eters Take Aim at Harding; Hyenas Laugh Them Off

by Charles Elmer Farley

When the Kefauver varsity hockey team faced the Warren G. Harding High School ice men last April 27, many thought the Kangaroo puck passers would be blown out of the almost fully-repaired Mobile Home Bowl Arena by the Hyena skatersmen. Not so! Robert "Flinch" Baxter, centering the first line for the Orange and Turquoise paddlers, won a rare face-off to open the initial stanza, and, seconds later, Kefauver right wing Vincent Lambretta was bearing down on Lorne Meaire, stalwart Canadian-born netminder for the Harding frigid-aires. Whack! The 'Roo goal-protector uncorked a mighty slap shot that ricocheted off a broken pipe sticking up through the playing surface and caught the corner of the Hyena ice-crusher's net, and the up-and-coming Marcupal rubber-chasers found themselves holding their first lead of the season!

Time was not on the side of

the hapless C. Estes rinky-drinks, however, as Poucheter back-liner Bruno "Lurch" Grossnik inadvertently had the contest by shooting the disk into his own cage, and the Harding blade stars went on to defeat the Freezer-Roxes by the quite convincing margin of 23-2.

A bright spot for the KHS puckers, who once again sorely missed the services of the late Howard Lewis Havermeyer, was the play of "French" Lambretta, whose third period tally enabled him to register the first two-goal cap trick of his Kefauverster spear-carrier career.

Tuesday, the winless rink rats will again take to the still-mushy ice of the Mobile Home Bowl Arena, where they'll play host to the Skating Penguins of St. Vitus Academy for Boys. The game will mark the end of the campaign for both sides—a campaign delayed for more than two months by repairs to Deacon's magnificent, but seemingly jinxed, new sports facility.

'Roo Fingermen Outpeck Wingnuts

Inspired by the unexpected presence of Cheerleader Captain Ansara Swansdown Peppridge and her three deputy Kangarooers, Winky Dempier, Picky Albright, and Twinky Croup (not to mention Jumpy, the Kefauver Kangaroo, who was attending her first typing bee ever), our varsity space-bar-sitters fingered their way April 30, in Homeroom 6, to an easy victory over the badly out-classed Wingnut carriage drivers of Tucker Tech.

The contest stayed close through the early tab-tapping and tab-clearing events, but then Poucheter bell-ringer Angela DeMehring pulled off a brilliant ribbon reverse, and, when Clatteroo Rufus Leaking followed with two excellent shaft locks to widen the Hart-and-Peckers' margin to twelve big points, the typewriting was on the wall as far as the Tucker skatersmen were concerned.

And so the regular season ends for Coach Mrs. Olive Pinch's Longtail back-spacers, who must now sit back and wait for what most regard as a career bid to participate in the State Championship Heptagonal Typing Bee in Youngtown in early June.

"A decision on whether or not to attend the Heps, assuming our Magic Margainers are invited, will depend on the exam schedules of the individual typing team members," said Dr. Cornholt, who was among the enthusiastic spectators as the 'Roo key-tappers pounded the Fender Bender's "It's unfortunate the State Bee coincides with the close of our school year, but it does, and, after all, academics, not athletics, is C. Estes Kefauver High School's first priority."

Taking a slight edge off the Marcupal ribbon-changers' victory smiles was another of those unhappy instances of vandalism that have plagued our school in recent months. Dr. Cornholt, who discovered the pile of defacement himself upon his early arrival at Homeroom 6, termed the matter a terrible, astute waste.

News From Mobile Home Bowl Brings Excitement Here

May 4th brought a good deal of excitement to Dacron city schools, not to mention numerous gifts of relief.

Mr. Fausto X. Broccoli, foreman of the Mobile Home Bowl Arena repair crew (and father of KHS senior Dominic Broccoli) informed School Superintendent Doggett's office with the welcome news that the last leak in the plumbing beneath the Arena floor will soon be plugged. When the leak is completed, Mr. Broccoli explained, there should no longer be wet mushy areas wherever the ice surface is put down, and work can shortly begin on a new basketball court for tournament play without fears that the boards will warp as soon as they're put in place.

Construction on Dacron's magnificent new Mobile Home Bowl Sports and Entertainment complex started just three years ago on riverfront landfill property donated by the Mobile

Home Manufacturers Association and filed in by the City Sanitary Engineers Landfill Division. Now almost complete, the Mobile Home Bowl will serve Dacron well in many capacities, not the least of which is as a location for High School hockey competition and playoffs, tournaments, and banquets of all kinds.

School Superintendent Philo M. Doggett congratulated Mr. Broccoli and the entire Siciliano Construction Company whose work on the Mobile Home Bowl is now drawing to a close. Mr. Doggett said that by next year the Dacron Public Schools should be able to run their winter sports activities on a better scheduled footing and voiced hope that Dacron School teams would achieve better state-wide standings when top athletes did not have to divide their spring training efforts among hockey, basketball, swimming, tennis, track, and baseball.

Kangaroo Bowl-a-Dromedaries Roll Over Championship Hump

As Jumpy, the Kangaroo (who, of course, is really a kangaroo suit with Stan Fitzerman inside) hopped for joy and the C. Estesettes elatedly cheered their batsmen, the varsity bowling team rolled over the Ezra Taft Benson Bobcat batsmen last Thursday afternoon in the Bowl-a-Drome to clinch their first Greater Dacron Ten-Pin League Championship.

Outstanding performances for Coach Miss Marilyn Arrhenster's longball alley cats were turned at by Captain Herbert Leonard "Wing-Ding" Wenzelheimer, who rolled not one, but two over-200 games for our pit woodmen, and by Dominic "DOM" Broccoli, who came through with three straight strikes to defeat his Benson guttenpins opponent by a single

point.

As Wenzelheimer entered the tenth frame of his second win—the game that actually netted down the 13-3 victory for the Orange and Turquoise bowlers—the entire Kefauver student body, which had been excited early from clinics so it could attend the event, rose to its collective feet and gave the Bowl-a-drome team leader a thundering standing ovation.

And here's an ironic "liner note": Wing-Ding had not even been scheduled to start the game that eventually proved to be the clincher for our framethrowers! Originality, Emory Praeger was to have had that honor, but her unexpected case of tonsillitis cost the unlucky Pouchster pin-wizardess her chance for alley immortality.

Views on Sport by Franklin George Farber

Howard Lewis Havermeyer, 1947-1963

In taking an overall view of the performance of this year's athletic teams, not to mention the Class of '64's recent showing on the Scholastic Aptitude Tests, we are sure you will agree that our loss of Howard Lewis Havermeyer, fatefully tackled by leukemia just as he appeared ready to romp into the end zone of a brilliant high school career, was a most tragic event indeed.

Not all of us knew Howard well, due primarily to his shy nature and his frequent absence due to illness. But he always had a ready smile for every classmate, and who knows what dizzy heights he might have risen on the playing field or in the classroom, if Death had not hip-checked him into the boards just as he appeared ready to break in alone on the goal!

We're assured that Howard's leadership and ability would have made him a success in any endeavor, and feel it is now up to the rest of us to pick up the ball and follow the example he never had the chance to set.

Girls' Sports Splasharoos

by Naomi Eggenschwiler

The Babe Delirious Ziberias Club has chosen May 26 for the annual intra-mural Aqua-Hockey Nite, which will be held in the shallow end of the Dacron Municipal Swimming Pool. The bus will leave from the front of the Girls' gym promptly at 4:00 P.M., and those wishing to rent swim fins or field hockey sticks should check in with Club Sergeant at Ann Francine Palaka no later than 3:30 P.M.

The Girls' sophomore wrestling team traveled across town to Ezra Taft Benson High last May 1, and the Kangaroo second-year grapplers lost to the battling Bobkittens by the rather lopsided score of 37-6. The only non-loser for the Pouchsteric carnivores was junior Laurie "Big" Rapp, who fought her Benson soph matrician opponent to a dead heat.

The annual junior "Jumpy" tryouts are being planned and will commence in the near future. All those who wish to take a crack at being Kefauver High's lovable kangaroo mascot for 1964-1965 should get in touch with Cheerleader Captain Annans "Fridge" Peppridge no later than May 15.

Drowned by Boss Prendergast

This year's varsity swimming team has got mix with over-whelming success, and the Kangaroos' May 4 meet against the Lampeys of Boss Prendergast High School, despite the Pouchman's fierce desire for victory, did not prove an exception, as the H₂Osters paddled home on the short end of a 76-9 tally.

Kefauver poolshark Bob "Finch" Baxter did cause some early excitement for the visiting Orange and Turquoise tanksters, splashing to a third place in the 200-yard individual medley after Prendergast setback Gerber Toddlermale was disqualified for making two false starts. But from there on it was more sink than swim for the C. Estes Aquanymphs, with Bruno Groznak, in the 400-yard free-style, being the only Splasharoo to salvage even so much as a fourth place finish for the unfortunate chlorineman, who, forced once again to take to the pool without the late Howard Lewis Havermeyer, suffered their thirty-fifth consecutive tank defeat.

The Color of Freedom

By Forrest L. Swisher

Holy Gosh! What time was it anyway, I wondered. The darned alarm hadn't gone off again! And I was going to be late for class. I got dressed, grabbed my books, dashed out the door, and ran for the bus. Just made it! Now for a typical day, I thought.

Out of breath, I took the first seat I could find. Suddenly, a harsh, deep voice said loudly, "Yo' git yo'self to de back ob dis here bus, whigger boy!" Wildly confused, I looked around me. Everyone on this bus was Negro, except for one old man sitting right at the back. And the biggest Negro was beside me, his white teeth bared in an ugly sneer of racism!

"Wh--wh--what?" I stammered, stunned and insulted.

"Yo' all better jes' move yo' white self right now, whigger. We all don't take kindly to yo' inferior kind!" my colored seat mate hissed viciously.

I got up and staggered to the back of the bus, sitting down beside the old white man. "Take it easy, son. Don't be a troublemaker," he whispered to me quietly. "Someday we'll all be equal, just wait and see."

"Good Gosh!" I thought. "So this is what it's like to be a member of a minority group!" I could feel the hate, the ignorance, and prejudice in the air of the bus like an odor. A musky, acidic odor of fear and anger you could almost feel. I was sweating, I realized, and part of that odor was me! I kept my eyes lowered in shame until the bus rumbled and shuddered to my stop. I ran out the door, with cries of, "Dirty whigger!" behind me.

Hardly knowing where I was, but remembering I was late, I sprinted up the school steps. But when I reached the doors, I realized that an enormous Negro in a police uniform was standing in front of them, his arms folded. He was carrying a gun. Beside him, on a leash, were the biggest police dogs I'd ever seen. Like him, they were snarling and salivating. His face, like theirs, was a mask of prejudice.

"Jes' where you all think you all goin', I'll white boy?" was all he said. By now, I was afraid, but I was angry, too.

"I have a right to go to school!" I shouted. "I'm an American citizen! I've lived in this town all my life! How can a person be so blind as to judge another by the color of his skin?" I demanded. "After all, this is 1964!"

He just laughed a bitter, cynical laugh of contempt. "You all are a pretty uppity little whigger, ain't you?" he sneered. "Maybe I unleash these here guard dogs, an' teach you yo' place!"

I was surrounded, all of a sudden. Dark-skinned teenagers, men and women, the whole town were lining the sidewalk to the school and gesturing with their clenched fists, shouting obscenities. "Get out!"

"Go back to Europe where you came from!"

"Segregation forever!"

Terrified, I turned and ran.

I was hungry, but at the restaurant too I was turned away because of my color. "We don't want our plates dirtied by your kind!" I was told, cruelly.

Even at the little white church, to which I went for a moment's prayer, I was forbidden to enter. There too were the police, the dogs, the angry black crowds.

Could this be happening in our America, I wondered. Could there be hatred and ignorance like this? Could a man be treated no better than a beast all because of his pigmentation? And then, in a flash, I realized: It always had been happening in our country. Only now, the shoe was on the other foot.

And as the maddened crowd, brandishing a noose, tar and feathers, chains and ferocious dogs and fire hoses, closed in on me, I knew that this had been what a Great Man long ago had meant by "Do unto Others as You would have Them do unto You." For they were just treating me as they had always been treated by my friends, my forefathers, my family, by the white man.

The noose closed around my neck and...

I awoke. The alarm rang in my ears, and I had another day to begin. Another chance. Perhaps, a last chance...for all of us.

The Dead Martyr

By Charles U. Farley

Down the street the big car drives,
Our handsome President still lives,
Strong and vigorous is his life,
And so is the life of his well-dressed wife.

Cheers are loud
In the Texas sun!
Standing proud

In the Texas sun!
The people all cheer, Americans all,
Not knowing he too soon will fall,
And no one in the crowd giving a shout
Hears the fatal shot ring out!

A President dead
In the Texas sun!
Shot in the head
In the Texas sun!

A Nation mourns the loss of life,
In sympathy with the glamorous wife,
His children salute their father's grave,
He died all of our lives to save!

A solemn tune
In the Texas sun!
Taken too soon
In the Texas sun!

We ask for the mad assassin's name,
Yet in a sense we are all to blame!
It is for us determined to be,
To keep our country strong and free!

The eagle flies
In the Texas sun!
Through starry skies
In the Texas sun!

I ask the stars, "What means it all?"
The stars, they do not answer.
Why should such pain as mine befall?
Why poverty and cancer?
Why cannot brotherhood benign,
Regardless of race or creed,
Unite mankind? Why must it shine,
When rainfall farmers need?

I ask the rain, "Is Life but grief?"
The rain makes no reply.
Why must the tree be stripped of leaf?
Why must all someday die?
Why cannot understanding reign,
Throughout the world around?
But neither from the stars nor rain
No answer can be found!

The Kiss

(to T.A.C.)

By Lawrence Kroger

Thou talk not to me when we meet,
My love thou cannot see.
But yet I dream it would be sweet
To kiss the lips of thee!

'Tis said when thou with others be,
You give them all your heart.
Whatever they may say of thee,
I know that pure thou art!

Though thou would never give a kiss
To such a fool as I,
My dream of every night is this:
One kiss and then to die!
